

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Construction	Barricades	<b>Barricade Safety 2: Deadly Detour</b>	Driving around road construction and barricades is not only tricky: it can be dangerous to both drivers and road crews. Learn ways to get through the "Roadwork Maze" unscratched. Safety Shorts.	<b>B 8</b>	VHS	5 min
Construction	Barricades	<b>Barricade Safety: The Forbidden Zone</b>	Serious injuries can be avoided when barricades are properly observed. Tips are offered on barricade safety, off and on the job. Safety Shorts.	<b>B 7</b>	VHS	5 min
Construction	General Safety	<b>Above All Keep Your Head</b>	Emphasize the importance of protecting your head. NSC.	<b>A 1</b>	VHS	9 min
Construction	General Safety	<b>Call Before You Dig</b>	Great information for preparing a site. Get the specs first! Contact necessary Authorities.	<b>C 2</b>	VHS DVD	10 min
Construction	General Safety	<b>Portable Generators</b>	While Portable generators allow you to "take your power with you", safety dictates that you can't take that power for granted. Topics: accident prevention, awareness, safe operating procedures.	<b>P10</b>	VHS	5 min
Construction	General Safety	<b>The Competent Person &amp; Soil Testing</b>	Ensure your employees know their responsibility and are prepared for inspection. Clear, simple explanation of soil classifications. Five easy field tests for determining soil types. Preparation for and handling of an OSHA inspection.	<b>C27</b>	VHS	27 min
Construction	General Safety	<b>Traffic Control Through Work Zones</b>	With emphasis on worker safety, this program shows how to safely set up traffic control for short-term jobs. Includes: basic flagging techniques, safe taper lengths, positioning of channeling devices, safe work practices.	<b>T 8</b>	VHS	21 min
Construction	Ladders, Poles	<b>Climbing Poles and Ladders</b>	Workers illustrate safe procedures for climbing poles and towers including checking environment and structures, and use of portable and fixed ladders.	<b>C12</b>	VHS	5 min
Construction	Ladders, Poles	<b>Ladder Safety</b>	Designed primarily for step ladders and straight ladders. This video explains safety requirements, belt buckle rule, 4:1 ratio of straight ladders, and how to reduce ladder injuries from using incorrect procedures and unsafe behavior.	<b>L 3</b>	VHS DVD	5 min
Construction	Ladders, Poles	<b>Ladder Safety in Construction/General Use</b>	Train employees on tall hazards, and encourage them to pick the right ladder for the job, use it safely and as intended.	<b>L 4</b>	VHS DVD	11 min
Construction	Ladders, Poles	<b>Working On Ladders, Poles, and Scaffolds</b>	Among the safety procedures outlined in this program are using the right equipment for the job; setting up properly; inspecting all equipment before use; climbing and descending properly; and knowing the weight capability of the equipment.	<b>W11</b>	VHS	14 min
Construction	Roofing	<b>Roofing Safety</b>	Gives comprehensive training for those working in this high risk environment. Covers aspects of safety in the roofing industry. Don Brown.	<b>R23</b>	VHS	15 min
Construction	Roofing	<b>Roofing Safety: Hot Tar Roofing</b>	Roofing has long been a hazardous occupation. This video details the risks, hazards and safety considerations for hot tar roofers.	<b>R 9</b>	VHS DVD	15 min
Construction	Scaffolds	<b>Mobile Scaffolds</b>	Mobile Scaffolds can be easily overturned because they're so light. Take steps to ensure stability when installing or using mobile scaffolds.	<b>M10</b>	VHS DVD	5 min
Construction	Scaffolds	<b>Personal Fall Protection</b>	Stunt men falling from scaffolds, buildings and lifts highlight this program aimed at showing workers the importance of fall protection. Covers equipment tie-off and use, body belts, harness and positioning systems. Coastal.	<b>P27</b>	VHS	18 min
Construction	Scaffolds	<b>Rigging the Boardwalk (Part 1)</b>	Scaffolds are dangerous. Guard rails, ladders and planking are reviewed.	<b>R 8</b>	VHS DVD	5 min
Construction	Scaffolds	<b>Safe Rigging</b>	Explains the procedures involved in rigging for a safe lift. Emphasizes paying attention to the rated capacity and the variables that can reduce the rated capacity. Also explains calculating load weight, using tables of rated capacities, accounting for the effects of the sling angle and more. Tel-A-Train.	<b>R17</b>	VHS	16 min
Construction	Scaffolds	<b>Safety on the Boardwalk (Part 2)</b>	Working with mobile scaffolds can expose you to all of the usual hazards of scaffolds, plus a few more! The special hazards are covered and tips are shown on how to minimize danger at the job site, while you comply with regulations for scaffolds.	<b>S12</b>	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Construction	Scaffolds	<b>Scaffold Safety</b>	Excellent training program for anyone working on or near scaffolding. Attention given to safety rules, operating procedures, and safe use of scaffolds. Meets scaffold training requirements.	<b>S45</b>	DVD	10 min
Construction	Scaffolds	<b>Scaffolds: Part 1 General Requirements</b>	Fatalities and serious injuries associated with scaffolds are common. Help reduce accidents by making sure supported scaffolds meet requirements for design and construction. <i>(also in Spanish - 018)</i>	<b>S17</b>	VHS DVD	5 min
Construction	Scaffolds	<b>Scaffolds: Part 2 Safe Work Practices</b>	Safe use of scaffolds can help reduce accidents. Before performing work on scaffolds, know the hazards and understand procedures to control or minimize those hazards. <i>(also in Spanish - 019)</i>	<b>S18</b>	VHS DVD	5 min
Construction	Scaffolds	<b>Working Safely with Supported Scaffolding</b>	This video trains workers in the correct way to erect, maintain and use scaffolds. Includes, creating a stable foundation, Platforms and Planking, Power Lines, Ramps and Walkways, Fall Protection and more. Safety Source.	<b>S46</b>	DVD	25 min
Construction	Trenching/Shoring	<b>Trench Emergency</b>	Video reviews the dos and don'ts of trench rescue and can save the lives of both the person in the trench and the would-be rescuer.	<b>T 9</b>	VHS	16 min
Construction	Trenching/Shoring	<b>Trenching and Shoring Safety</b>	Overview of excavating and trenching safety basics.	<b>T12</b>	VHS	14 min
Construction	Trenching/Shoring	<b>Trenching and Shoring: The Hole Story</b>	Every year, dozens of workers are killed in unsafe trenches. This video explains the risk, the need for shoring soils, and conditions that affect the stability of trenches, as well as offering alternatives to shoring.	<b>T10</b>	VHS	12 min
Construction	Trenching/Shoring	<b>Trenching Cave-in Response</b>	Knowing safe response methods for cave-ins can make the difference between life and death, especially for rescuers. Designed for both on-site and rescue personnel, this video examines the basic considerations involved in cave-in emergencies.	<b>T13</b>	VHS	24 min
CPR/First Aid	Health	<b>An Ounce of Prevention</b>	For outdoors first aid, covers animal and insect bites, frostbite, sunburn, heat exhaustion, swimming emergencies, allergic reaction to plants and more.	<b>F32</b>	VHS	14 min
CPR/First Aid	Health	<b>Biological Hazards</b>	How infection can occur and how workers can protect themselves from exposure. Discusses which employees are at greatest risk and the types of environments that contain biological hazards such as viruses, bacteria or fungi. Marcom.	<b>B27</b>	VHS	13 min
CPR/First Aid	Health	<b>Bloodborne Pathogens</b>	This one-of-a-kind video/DVD trains employees to respect the hazards of pathogens.	<b>B29</b>	DVD	5 min
CPR/First Aid	Health	<b>Bloodborne Pathogens 2000</b>	A comprehensive video that covers a broad range of information relating to blood borne pathogens and related issues. Exposure prevention techniques, HIV, HBV, HCV and more are covered in depth. <i>(also in Spanish - 029)</i>	<b>B14</b>	VHS DVD	18 min
CPR/First Aid	Health	<b>Bloodborne Pathogens For Heavy Industry</b>	Contains information of the standard, epidemiology and symptoms of blood borne diseases, modes blood borne diseases are transmitted, the exposure control plan, recognition, practices to prevention, HBV vaccination, emergency procedures, signs and labels, selection and use of personal protective equipment, and more. Marcom.	<b>B24</b>	VHS	15 min
CPR/First Aid	Health	<b>Preventing Bloodborne Disease</b>	Aimed at first responders, first aid providers, custodial personnel and other workers in industry whose job duties may put them at risk for blood borne disease. Covers how transmitted and how to apply Universal Precautions to prevent contamination and infection. Protective equipment is also discussed, as is safe clean-up procedures and proper disposal of potentially infectious materials. Tel-A-Train.	<b>B22</b>	VHS	16 min
CPR/First Aid	Health	<b>Preventing Exposure to BBP's</b>	This updated video will provide information about blood borne pathogens and diseases that relate to them. Topics include modes of transmission, universal precautions, use of personal protection, biohazard containers/labels and the company exposure control plan.	<b>B31</b>	DVD	10 min
CPR/First Aid	Health	<b>The Big Chill</b>	Hypothermia occurs when the temperature of the body's inner core has been lowered sufficiently to cause illness. Hypothermia can strike quickly and silently. If left untreated, hypothermia can eventually lead to death.	<b>B12</b>	VHS	5 min
CPR/First Aid	Health	<b>Worker Awareness Bloodborne Pathogens</b>	Aimed at workers in manufacturing, pharmaceutical, utilities, general industry and petroleum refineries, this program will aid training of workers who are affected by this standard. Covers: the scope of the standard, what BBPs are, safe work practices, PPE, engineering controls, housekeeping, safe handling of materials, proper handling and cleanup and disposal methods. Summit.	<b>B23</b>	VHS	14 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
CPR/First Aid	Injury	<b>First Aid for Accidents</b>	Because a seriously injured person may die before help can arrive, it's up to every worker to know first aid. In the program, several vignettes illustrate some of the most serious accidents that can occur in the workplace, etc.	<b>F11</b>	VHS DVD	17 min
CPR/First Aid	Injury	<b>First Aid for Supervisors</b>	When accidents occur supervisors must be prepared to act. Review their responsibilities: Emergencies vs. minor first aid treatment, elements of a good first aid program and treatment of common injuries.	<b>F12</b>	VHS DVD	17 min
CPR/First Aid	Injury	<b>Head Injuries</b>	Consider all head injuries seriously. Know first aid and when to seek medical care. Head injuries appear to be a minor bumps, bleeding of the scalp, a fractured skull, or a bruise to the brain, etc.	<b>H17</b>	VHS	5 min
CPR/First Aid	Injury	<b>Safety Showers Eye Washes</b>	Reviews situations where safety showers and eyewashes should be used and how to use them correctly. Covers types of shower and eyewash techniques, helping a victim use showers and eyewashes, first aid, maintenance and testing of equipment. Marcom.	<b>S58</b>	VHS	12 min
CPR/First Aid	Injury	<b>Stop The Bleeding</b>	With severe bleeding, quick and proper action is vital. The basic first aid procedures are demonstrated. Safety Shorts.	<b>S48</b>	VHS	5 min
CPR/First Aid	Stress/Wellness	<b>Battling Fatigue</b>	Fatigue on the job can mean trouble. The various types of fatigue and ways fatigue can be overcome are covered. <i>(also in Spanish - 002)</i>	<b>B11</b>	VHS DVD	5 min
CPR/First Aid	Stress/Wellness	<b>Heat Illness</b>	Symptoms and stages of heat illness reviewed and the best treatment for each symptom/stage offered. Suitable for all employees.	<b>H29</b>	VHS DVD	6 min
CPR/First Aid	Stress/Wellness	<b>Heat Stress</b>	In outdoor work, temperatures will rise and so will the risks. Cramps, exhaustion and stroke can all plague employees in hot weather conditions. Cool off these dangers now with tips on illness prevention and safety hazards. Coastal.	<b>H53</b>	VHS	16 min
CPR/First Aid	Stress/Wellness	<b>Heat Stress</b>	Discusses signs, body's reaction, & how to avoid heat stress. Also, the effects of alcohol, medications & food. The video addresses acclimation, dressing for, sun protection & first aid for heat.	<b>H28</b>	VHS DVD	12 min
CPR/First Aid	Stress/Wellness	<b>Heat Stress (In the Work Environment)</b>	Employees in this environment are frequently exposed to heat stress, which can not only slow production, but can also be a medical emergency. Identifies the signs, symptoms and prevention of this potential killer. Don Brown.	<b>H48</b>	VHS	11 min
CPR/First Aid	Stress/Wellness	<b>Heat Stress Prevention</b>	Shows the effects heat stress has on the body, and teaches workers how to reduce the probability of suffering such heat related disorders as heat cramps, heat exhaustion and heat stroke. First aid measures are also covered. Summit. (Good video)	<b>H46</b>	VHS	11 min
CPR/First Aid	Stress/Wellness	<b>Lifestyles for Wellness</b>	This program teaches the concept of wellness, and motivates viewers to adopt healthy lifestyles. A number of people reveal how their wellness program contributes to their lives, improving their health, their productivity, and their general outlook in the process. This presentation will encourage widespread participation in a wellness program that includes fitness, nutrition, and stress management. Hosted by William Shatner.	<b>L 7</b>	VHS	17 min
CPR/First Aid	Stress/Wellness	<b>Stress in the Workplace</b>	Approximately three fourths of all Americans experience stress. The causes of stress and ways to deal with it are discussed. <i>(also in Spanish - 022)</i>	<b>S33</b>	VHS	5 min
CPR/First Aid	Stress/Wellness	<b>Stress Management: A Practical Approach</b>	Supervisors will be provided with information relating to stress and how the supervisor can reduce stress at work, eliminating the potential for stress related disorders and worker compensation disabilities due to stress.	<b>S34</b>	VHS	18 min
CPR/First Aid	Stress/Wellness	<b>Stress Relief</b>	If employees understand what stress is and why it happens, they can minimize its impact. This short program is targeted for employees in the workplace. It is designed to help people who are stressed to better cope with situations.	<b>S35</b>	VHS	7 min
CPR/First Aid	Stress/Wellness	<b>Stress Relief: The Heimlich Method</b>	Dr. Heimlich explains what stress is, how it works, gives simple strategies for cooling off stressful situations; changing habits that invite stress to rule our lives; and gives the viewer tools to take responsibility for their emotional health.	<b>S36</b>	VHS	18 min
CPR/First Aid	Stress/Wellness	<b>Sun Safety: A Growing Health Concern</b>	This video provides information on the health effects from overexposure to the sun, types of skin cancers, the ultraviolet (UV) index, individual characteristics that are risk factors, and preventative sun safety practices.	<b>S51</b>	VHS DVD	12 min
CPR/First Aid	Stress/Wellness	<b>Working Safely in Hot Environments</b>	This DVD addresses heat illness and heat stress.	<b>H54</b>	DVD	10 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Driver	Crime Prevention	<b>Carjacking It Can happen to Anyone</b>	Viewers are given tips on how not to be a victim and what to do if carjacking occurs. Important to be alert at all times, approaching your parked car, moving carjacking, the value of car phones in cases of emergency and stresses that you should never resist. (Dated as far as dress, hair and 'car phones', but good info)	<b>D20</b>	VHS	9 min
Driver	Crime Prevention	<b>Reduce Your Risk of Being a Victim of a Crime While Driving</b>	This National Safety Council presentation demonstrates personal safety techniques to guard against: mugging, car theft, carjacking & other vehicle related crimes.	<b>R 2</b>	VHS DVD	15 min
Driver	Crime Prevention	<b>Road Rage &amp; Aggressive Driving</b>	Road Rage is deliberate, violent behavior by a driver in response to a real or imagined traffic grievance. This timely program looks at road rage and aggressive driving from the driver's perspective.	<b>R12</b>	VHS DVD	20 min
Driver	Crime Prevention	<b>Women's Safety Awareness: Safety Made Simple</b>	Designed to give women a tactical edge in staying safe from crime and victimization. Learn ways to stay safe: at home, when driving, while shopping and if confronted by a criminal attacker or abductor.	<b>W23</b>	VHS	25 min
Driver	General Safety	<b>Ask Any Dummy Seat Belts Make Sense!</b>	Vince & Larry, the US DOT's famous crash dummies star in their own original video that is sure to motivate viewers to wear seat belts. Combines humor and vivid comparisons between belted and unbelted passengers, especially infants and children who are unbelted or sitting in. Aims.	<b>D19</b>	VHS	18 min
Driver	General Safety	<b>City Driving</b>	You face many distractions and hazards driving in the city. Sometimes, the distractions become the hazards. Driving in the city requires your full attention.	<b>C10</b>	VHS DVD	5 min
Driver	General Safety	<b>Coaching the Beginning Driver</b>	2 videos (A & B) Driving Techniques - a defensive driving video for the new driver. Coaching Techniques - a "Parent" video to help you become more effective in a "one-on-one" driving situation with your teenager. NSC.	<b>C25</b>	VHS	59 min
Driver	General Safety	<b>Disabled Vehicles, Accident Procedures &amp; Truck Fires</b>	What to do with disabled vehicles, reporting accidents, accident scene procedures, emergencies, vehicle fires and handling hazardous waste. (dated, pay phones, but still some helpful information)	<b>D22</b>	VHS	15 min
Driver	General Safety	<b>Driven Driver</b>	For outside sales and service personnel, this program discusses the importance of safe driving, the reasons for being familiar with the vehicle, safe driving skills, the effects of alcohol and drugs and the benefits of alcohol and drugs and the benefits of always wearing safety belts. Summit.	<b>D15</b>	VHS	15 min
Driver	General Safety	<b>Driver Attitudes</b>	The importance of patience and common courtesy toward other drivers is discussed. Reminds drivers the way they drive affects the image of the company. Particular emphasis is placed on alcohol and driving - impairment of vision and judgment, long-term effects on the families of victims and how the law and court decisions are increasing penalties for DWL. (May be a bit dated, but good info). Summit.	<b>D14</b>	VHS	11 min
Driver	General Safety	<b>Driving &amp; Drugs, Driving Under the Influence</b>	Demonstrates dangers of combining alcohol & drugs with driving. Realistic scenarios show operation of a vehicle is greatly impaired when drivers are under the influence of alcohol, marijuana, cocaine and other drugs. Features aspects of Designated Driver Program & law enforcement measures used to deter DUI.	<b>D13</b>	VHS	18 min
Driver	General Safety	<b>DUI: The Price is Too High</b>	Dramatic vignettes make it clear that there are life-altering legal consequences of DUI. This video follows the stories of 3 first time offenders through arrest, losing licenses, court and fines, attendance in an alcohol and drug awareness program in lieu of jail, canceled auto insurance or increased insurance premiums, and in the case of at least one of the three, termination of employment.	<b>D10</b>	VHS	23 min
Driver	General Safety	<b>Hapless Hal's Roadside Safety</b>	An unexpected mechanical problem can be a headache and a real danger. A step-by-step approach in dealing with automobile trouble and preventative maintenance are shown.	<b>H 7</b>	VHS	5 min
Driver	General Safety	<b>Intersections</b>	Intersections are the most dangerous driving situations in the city. Learn some easy to apply techniques to significantly reduce the likelihood that you will be involved in an intersection accident.	<b>I 5</b>	VHS	5 min
Driver	General Safety	<b>Modern Technology and Driving</b>	This video covers safety issues involving air bags, automatic safety seat belts, four-wheel drive, cruise control, car phones, and high tech audio systems.	<b>M11</b>	VHS	15 min
Driver	General Safety	<b>National Driving Test 2</b>	This program helps drivers discover how skilled and knowledgeable they really are when driving and if they are prepared to handle traffic situations and possible hazards. The program presents 25 questions that cover an extensive variety of situations.	<b>N 2</b>	VHS DVD	13 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Driver	General Safety	<b>Red Asphalt V</b>	Points out the #1 cause of death for teens are car crashes. More than a dozen graphic scenes of dead motorists consisting of mangled faces and bodies. It is probably the most graphic of all the Red Asphalt videos and promised to be the most effective.	<b>D31</b>	VHS DVD	16 min
Driver	General Safety	<b>Safety Belts &amp; You</b>	Here is a film that explains the importance of using safety belts every time you get into a vehicle. It also demonstrates what can happen to you if you do not use safety belts.	<b>S 7</b>	VHS DVD	15 min
Driver	General Safety	<b>Seat Belts are for Kids, Too</b>	Geared for kids... Starring the Schiefelly Puppets. Shows how to wear seat belt correctly, why the shoulder and lap belts are important and why babies and smaller children need to use car seats. Aims. (Cute)	<b>D27</b>	VHS	10 min
Driver	General Safety	<b>Seatbelts and Birthdays</b>	Ever wonder why you should wear a seatbelt whenever you're on a car? Here's your answer.	<b>S19</b>	VHS	10 min
Driver	General Safety	<b>The Moment of Impact</b>	Automobile accidents cause nearly half of all accidental deaths in the US. This video shows you what to do after an accident to make the best of a bad situation.	<b>M12</b>	VHS	5 min
Driver	General Safety	<b>Van &amp; Truck Driving Safety on the Job</b>	Develop a safe, professional attitude. A veteran driver explains that being a real pro is staying alert, wary, patient and considerate. Teaches all the fundamentals of safe, professional driving procedures. Reminds drivers that accidents are often caused by poor judgment and lack of attitude. (Dated, but good info)	<b>D17</b>	VHS	23min
Driver	General Safety	<b>Watch Your Load</b>	Loose items inside a vehicle can be deadly projectiles in an accident or sudden stop. Hapless Hal illustrates the dangers of unrestrained cargo.	<b>W 2</b>	VHS DVD	5 min
Driver	General Safety	<b>Who's Driving?</b>	Discusses the standard on Occupant Protection in motor vehicles and will compliment any driver safety program. Covers paying attention, being alert when driving, pre-trip preparation and wearing safety belts. Coastal. (Dated, but somewhat entertaining with useful information)	<b>D24</b>	VHS	15 min
Driver	Other Vehicles	<b>Driving Through the Danger Zone</b>	Mainly for large truck and semis. Good information.	<b>D26</b>	VHS	25 min
Driver	Other Vehicles	<b>Dump Truck Safety</b>	Reminds employees to follow proper procedures and correct bad habits: types and sizes of dump trucks, vehicle inspections to detect problems; loading, unloading and dumping safely; vehicle maneuvering & terrain; driver attitude and fitness. Don Brown.	<b>D11</b>	VHS DVD	15 min
Driver	Other Vehicles	<b>Landscape Equipment Safety - Vol. 2: Riding Mowers</b>	A terrific video for your infield landscape personnel. It demonstrates safe operating techniques as well as maintenance guidelines.	<b>R 7</b>	VHS	20 min
Driver	Other Vehicles	<b>Motorcycle Safety</b>	There are more than 400,000 motorcycle accidents each year. Frequent causes of accidents are discussed.	<b>M15</b>	DVD	5 min
Driver	Other Vehicles	<b>Orientation to Agriculture Vehicle Safety</b>	This video covers many of the safety issues that apply to driving an agricultural vehicle, such as defensive driving, driving under the influence, safety belts, vehicle speed, driving in adverse weather, vehicle inspections and vehicle maintenance.	<b>O 6</b>	VHS	52 min
Driver	Other Vehicles	<b>Professional Driver (Relating to Hazardous Materials)</b>	Training requirements for drivers who transport hazardous materials including per-op inspections, basic operating skills, and safe driving techniques. (Dated, but has some useful information)	<b>D25</b>	VHS	15 min
Driver	Other Vehicles	<b>Rear Loader Operations and Safety</b>	Truck operations, helpers, loading, improper sites, container blockages, landfill safety, dumping and residential safety are shown. Don Brown.	<b>R21</b>	VHS	11 min
Driver	Other Vehicles	<b>Side Loader Operations &amp; Safety (Garbage Trucks)</b>	Remind your employees of the hazards and encourage a good safety attitude. This video highlights Pre-trip inspection checklists; defensive driving; personal injury prevention; avoiding slips and falls; safe lifting; gloves; etc.	<b>S22</b>	VHS	11 min
Driver	Other Vehicles	<b>The First Five Minute Inspection</b>	In just five minutes, this video shows you the steps to take to inspect your rig before you hit the road, or something on it.	<b>F14</b>	DVD	5 min
Driver	Other Vehicles	<b>The Safe Route</b>	4-Wheel Drive Safety.	<b>S43</b>	VHS	16 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Driver	Technique	<b>Controlling Auto Skids</b>	Information on controlling auto skids. (Older vehicles but still useful information)	<b>D23</b>	VHS	10 mins
Driver	Techniques	<b>Backing Up</b>	Safely backing up trucks, trailers and other vehicles can be a challenging task requiring more than a little skill. Every year there are many accidents resulting in injury and damage due to carelessness when backing vehicles up.	<b>B 6</b>	VHS DVD	5 min
Driver	Techniques	<b>Habit Defense: Covering the Break</b>	This defense driving program stresses the habit of safety. Centers on increasing awareness of possible hazards and being prepared to act quickly, leading to reduced stopping distance. (Pretty smart kid!)	<b>D16</b>	VHS	20 min
Driver	Techniques	<b>On the Road Safety</b>	Reviews: 4 step accident prevention formula; stopping distances; reaction, braking and stopping times for 20 mph vs. 40 mph; complete inspection check list; cautious driving through intersections, R/R crossings, lane changes, etc. (Focus - Big Trucks & includes waste trucks)	<b>O 4</b>	VHS	12 min
Driver	Techniques	<b>Route Safety Analysis</b>	Covers route hazards, container hazards, tight spaces, reporting hazards and damage, overloaded containers, unauthorized hazardous waste, dumping the load and inspecting the vehicle at the landfill.	<b>D30</b>	VHS	30 min
Driver	Techniques	<b>Safe Driving on Freeways</b>	This video explains many basics of the law as a reminder of info. Freeway drivers should already know. High Impact for anyone operating an auto, light truck, or other on-the-road vehicle.	<b>S 2</b>	VHS DVD	17 min
Driver	Techniques	<b>Safe Driving Tactics + Discussion Guide</b>	This program advises viewers how to react to and avoid dangerous situations involving hydroplaning, rollovers, head-on collisions, highway hypnosis and wind waves causes by passing semis. Discusses basic driving tactics and more.	<b>S 1</b>	VHS	26 min
Driver	Techniques	<b>Safety On The Job: Van and Truck Driving Length</b>	A veteran tow truck operator explains the importance of being alert, wary, patient and considerate. He cautions on the results of poor judgment, lack of discipline, or not knowing the equipment. Teaches fundamentals that should become habits.	<b>S13</b>	VHS DVD	23 min
Driver	Techniques	<b>Space Invaders</b>	Here is a video designed for the professional driver. It describes space-time relationships and conditions affecting those relationships. Space cushioning is the focus of this film, which also deals with tailgaters.	<b>S29</b>	VHS	9 min
Driver	Techniques	<b>Speeding (Cars)</b>	Speeding is a national epidemic. It's deadly. It's everywhere. The viewer is motivated to make a life-saving decision - not to speed.	<b>S30</b>	VHS	5 min
Driver	Techniques	<b>Speeding (Trucks)</b>	Problems are multiplied when you mix trucks and speeding. The possible harm, damage and destruction are all bigger than life. It is the driver's responsibility to increase his awareness of potential hazards and reduce his speed.	<b>S31</b>	VHS	5 min
Driver	Techniques	<b>Truck Driving - Controlling Skids</b>	Gives drivers info they need to make the right decisions quickly to avoid accidents. Covers causes of skids, the importance of quick action, control of the vehicle, jack-knifing and more.	<b>D18</b>	VHS	17 min
Driver	Techniques	<b>Vehicle Backing Accident Prevention &amp; Child Safety</b>	Backing accidents can be prevented! Through awareness & working without taking chances, your employees can have accident-free routes. (Note: Video is for garbage-type trucks)	<b>V 1</b>	VHS	10 min
Driver	Techniques	<b>Vehicle Safety - Driving On the Road</b>	A video that emphasizes the need for wearing seat belts, driving defensively, rules of the road and other safety awareness when operating a motor vehicle.	<b>V 2</b>	VHS	17 min
Driver	Weather Hazards	<b>Driving In Bad Weather</b>	This great video presents common weather-related driving problems from the point of view of the driver. It discusses and demonstrates many different bad weather driving situations and what to do if one is encountered while driving. Topics such as icy roads, how to handle your vehicle in thunderstorms and standing water, and driving in thick fog.	<b>D32</b>	DVD	17 min
Driver	Weather Hazards	<b>Low Visibility and Driving</b>	Learn about fog, snow, rain and bright sun, night driving, oversized vehicles, obstacles within the vehicle, blinding spray from passing vehicles, effects of shadows, safe stopping areas and more in this eye-opening video.	<b>L13</b>	VHS DVD	15 min
Driver	Weather Hazards	<b>Surviving Winter Driving</b>	This is a program that discusses loading techniques, vehicle conditions, slow starts, curves, turns, braking, jack knifing, skids, emergency equipment and more.	<b>S39</b>	VHS	10 min
Driver	Weather Hazards	<b>Taming The Winter Road + Guide</b>	This video covers winter driving hazards the professional truck driver encounters. It presents useful information you can use to prevent collisions and other situations that can cause you costly slowdowns. It also prepares you for how to deal with dangerous winter driving conditions once they occur.	<b>T 3</b>	VHS	11 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Driver	Weather Hazards	<b>Winter Driving</b>	How do you avoid slipping and sliding while driving on snow and ice? What do you do if you lose control of your car, or if you get stuck in a snow drift? Tips are given for dealing with winter driving hazards.	<b>W 8</b>	VHS DVD	5 min
Driver	Weather Hazards	<b>Winter Driving Update</b>	There are many safety precautions, preventive measures, and tactics to learn before driving in winter conditions. Good driving habits such as paying attention, keeping two hands on the wheel, and maintaining a generous following distance are encouraged. Methods for driving safely in snow and ice are demonstrated. The importance of being prepared in the event of a breakdown is emphasized. Aims.	<b>W26</b>	VHS	15 min
Ergonomics	Back Safety	<b>Back In Shape</b>	Understanding how back/spine functions; Role of ligaments, muscles, vertebrae, disks and joints; Natural curve of the spine; Sitting, standing, sleeping - proper posture. Long Island Productions (TTN).	<b>B19</b>	VHS	17 min
Ergonomics	Back Safety	<b>Back In Step: The Road to Recovery From Back Pain</b>	The most comprehensive back pain/injury recovery available. Designed to be viewed by people with full blown back injury or those simply experiencing back pain or discomfort. This program teaches people their role in the recovery process and how to perform daily activities in a way that promotes the recovery of their backs.	<b>B20</b>	DVD	
Ergonomics	Back Safety	<b>Back Injury Prevention</b>	The variety of lifting tasks employees face require specific techniques. It is definitely a "must see" program for employees before an accident occurs. Good for retraining employees who experienced a back injury.	<b>B 1</b>	VHS DVD	8 min
Ergonomics	Back Safety	<b>Back Injury Prevention through Ergonomics</b>	This program explains why back injuries are frequent. It will also discuss the structure and function of the human back. Employee's posture, object weight and task design are also detailed.	<b>B 2</b>	VHS DVD	15 min
Ergonomics	Back Safety	<b>Back Injury Prevention through Exercise</b>	This program stresses a personal responsibility to warm up the back and other muscles. Simple exercises are described and demonstrated. These exercises don't take a lot of time and are proven to reduce back injuries.	<b>B 3</b>	VHS	8 min
Ergonomics	Back Safety	<b>Back to Basics</b>	Four out of five Americans will have back problems. This Safety Short video shows what can cause back injuries and how you can avoid them.	<b>B30</b>	VHS	8 min
Ergonomics	Back Safety	<b>How to Control Back Pain</b>	1/3 of all Americans suffer from back pain at some time of their life. Educate your employees to keep their backs healthy.	<b>H22</b>	VHS	9 min
Ergonomics	Back Safety	<b>How To Control Back Pain</b>	The back pain cycle; Prevent or lesson back pain through visualization, muscle relaxation, exercise and good posture.	<b>H30</b>	VHS	17 min
Ergonomics	Back Safety	<b>How to Prevent Back Injuries</b>	Safe lifting guidelines, Preventing back injuries at work, How your diet affects back safety and exercises that can strengthen your back.	<b>H24</b>	VHS DVD	20 min
Ergonomics	Back Safety	<b>Preventing Back Injuries</b>	Video shows the mechanics of the back, back care exercises and proper techniques of how to use your back.	<b>P17</b>	VHS	10 min
Ergonomics	Back Safety	<b>Preventing Back Injuries Through Exercise</b>	Gives basic exercises that warm up the back before beginning work and how these simple exercises will prevent back injuries and improve the health of the employees who participate. Don Brown. (Construction Related)	<b>B25</b>	VHS	10 min
Ergonomics	Back Safety	<b>Safe Lifting and Carry Techniques</b>	Tips are offered on how to avoid back problems while lifting, pulling, pushing, bending or twisting when you are moving heavy or awkward objects.	<b>S 4</b>	VHS	5 min
Ergonomics	Back Safety	<b>Understanding the Working Back</b>	Video shows how to lift things and not hurting your back.	<b>U 2</b>	VHS DVD	15 min
Ergonomics	Computers	<b>Working Safely with Video Display Terminals</b>	The U.S.Dept. of Labor reports that repetitive strain injuries now account for more than 50% of all workplace injuries. VDT operators are among the most vulnerable. This video shows how to protect against repetitive strain injuries in the office.	<b>W12</b>	VHS	12 min
Ergonomics	Computers	<b>Workstation Ergonomics Part 1: Eyestrain</b>	Computer users are highly susceptible to eyestrain. This parody of futuristic space travelers offers tips on how to reduce eyestrain by modifying your workstation.	<b>W19</b>	VHS	5 min
Ergonomics	Computers	<b>Workstation Ergonomics Part 2: CTDs</b>	Computer users are susceptible to Cumulative Trauma Disorders caused by repetitive motion at a keyboard. To help reduce injuries, follow tips for workstation design and safe work practices.	<b>W20</b>	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Ergonomics	General Safety	<b>Basic Ergonomics</b>	Ergonomics, the science of matching man to machine, can affect the working conditions of each employee. This video humorously introduces this important concept. <i>(also in Spanish - 001)</i>	<b>B10</b>	VHS	5 min
Ergonomics	General Safety	<b>Desktop Ergonomics</b>	Every job makes a different set of demands on the body. Today the issue of how this impacts employees and what can be done to reduce or eliminate adverse effects is receiving a lot of attention. While there is much debate about many aspects of ergonomics, everyone agrees on one thing... that is by using proper ergonomic techniques, employees can be safer and more productive as well as feel better at the end of the day.	<b>E32</b>	VHS	12 min
Ergonomics	General Safety	<b>Ergonomics Safety</b>	Fitting the work to the worker. Worksite analysis, Hazard prevention, Implementation of medical management, Training and education.	<b>E20</b>	VHS DVD	5 min
Ergonomics	General Safety	<b>Home Ergonomics</b>	The ergonomic lessons employees learn on the job are too often forgotten on the home front. By applying similar principles, we can keep ergonomically safe and efficient, etc. Safety Shorts.	<b>H21</b>	VHS	5 min
Ergonomics	General Safety	<b>Industrial Ergonomics</b>	It's essential that industrial work areas, equipment and processes are ergonomically correct. This program defines ergonomics and outlines ways that ergonomic hazards can be engineered out of the work process. Emphasis is placed on recognition, evaluation and control of hazards. Potential ergonomic hazards associated with material handling are also discussed. Safety Source.	<b>I 4</b>	VHS	16 min
Ergonomics	General Safety	<b>Preventing Thermal Illness</b>	VDT Ergonomic Programs that Work.	<b>P19</b>	VHS	12 min
Ergonomics	Lifting	<b>Lifting Safety in the Distribution Terminal</b>	The varieties of lifting tasks in the distribution industry require specific techniques to be accomplished safely. This program provides an in-depth look at proper lifting techniques under difficult conditions and hazards resulting from incorrect methods.	<b>L 9</b>	VHS	20 min
Ergonomics	Lifting	<b>Manual Lifting and Handling</b>	Supervisor Development Film; presenting the basics of proper materials handling.	<b>M 6</b>	VHS	10 min
Ergonomics	Lifting	<b>Manual Load Handling in the Warehouse</b>	The improper lifting, carrying or handling of materials causes 2/3 of all warehouse injuries. This program presents the do's and don'ts of warehouse procedures and shows workers how to handle products safely and efficiently. It also describes how to correctly inspect a load, checking for weight, nails, sharp edges, a weak bottom, or oily spots that could make the load slippery. Also stresses the dangers of working under the influence of alcohol and drugs.	<b>M 7</b>	VHS	12 min
Ergonomics	Lifting	<b>System Lifting Techniques</b>	This video gives us a visual look of spine and muscle function, the cause of back pain, and back injury prevention. Safety Source.	<b>S41</b>	VHS	10 min
Ergonomics	Lifting	<b>Workers Enemy Number One</b>	Forty percent of all work related injuries involve the back. This video explains how to avoid back injury through common sense practice. <i>(also in Spanish - 028)</i>	<b>W18</b>	VHS DVD	5 min
Ergonomics	Strains/Injuries	<b>Carpal Tunnel Syndrome</b>	Video is designed to heighten awareness of CTS and to facilitate the implementation of your ergonomics program. By understanding how carpal tunnel works, employees are more suited to determining their own solutions to preventing harmful and costly CTS injuries.	<b>C26</b>	VHS DVD	13 min
Ergonomics	Strains/Injuries	<b>Carpal Tunnel Syndrome</b>	Describes carpal tunnel syndrome, how to prevent CTS and what employees can do to reduce the effects of CTS. Don Brown.	<b>C 5</b>	VHS	14 min
Ergonomics	Strains/Injuries	<b>Carpal Tunnel Syndrome</b>	Help your employees avoid pain and lost work time due to this preventable nerve condition. This program discusses: symptoms, pain, tingling, poor gripping, hand anatomy, protection of median nerve, and syndrome causes.	<b>C 4</b>	VHS DVD	14 min
Ergonomics	Strains/Injuries	<b>Hand and Wrist Injuries</b>	Hands are especially prone to injuries. Teach employees about hand accidents and how to avoid them. Includes hand and wrist structure, injuries, fractures, sprains, lacerations, and nerve compression and treatments.	<b>H 1</b>	VHS	10 min
Ergonomics	Strains/Injuries	<b>Repetitive Strain Injuries</b>	Repetitive strain injuries are an ever increasing occupational hazard. Learn ways to prevent these Injuries. <i>(also in Spanish - 016)</i>	<b>R 6</b>	VHS	7 min
Fire/Disaster	Disaster Preparedness	<b>Building Evacuation</b>	Covers the principles of evacuations in buildings and the importance of everyone knowing their role in case of emergency. Covers runners and floor wardens, warning systems, communications, assembly areas, handicapped people, order of evacuation, stairways and more. Safety Care.	<b>E25</b>	VHS	12 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Fire/Disaster	Disaster Preparedness	<b>Earthquake Awareness &amp; Risk Reduction</b>	This video is produced by Utah State U. and contains vital statistics on earthquake awareness and ways to reduce the risk of injury and death in the event of an earthquake.	E 2	VHS	25 min
Fire/Disaster	Disaster Preparedness	<b>Earthquake Safety</b>	What causes an earthquake? A historical look at California's earthquakes and what to do in the event of an earthquake today. (Primarily from a southern California view)	E 3	VHS	12 min
Fire/Disaster	Disaster Preparedness	<b>Earthquake: Some Were Prepared</b>	People who experienced the 1989 Loma Prieta earthquake discuss how they prepared for and lived through it. Seismologists, health care professionals, emergency service personnel, and area residents outline ways to prepare for and respond to a quake.	E 1	VHS	30 min
Fire/Disaster	Disaster Preparedness	<b>Egress/Exit Safety</b>	What a way to die. What if your building has emergency exits, but you can't escape disaster because you can't exit safely? Obstructions, exit doors, and how to exit safely are covered. <i>(also in Spanish - 005)</i>	E 7	VHS DVD	5 min
Fire/Disaster	Disaster Preparedness	<b>Emergency Evacuation</b>	Explains the essentials of evacuations, precautions to take, and what to do in case of an emergency. Although designed for large buildings, it can be adapted to any size facility.	E14	VHS DVD	14 min
Fire/Disaster	Disaster Preparedness	<b>Emergency Evacuation Procedures</b>	Covers the importance of evacuation plans & training procedures.	E15	VHS	10 min
Fire/Disaster	Disaster Preparedness	<b>Emergency Preparedness - A Supervisor's Role</b>	This comprehensive video addresses EVERYTHING concerning emergency preparedness & natural disasters such as floods, earthquakes, hurricanes and storms. Also covers accidental disasters: fires, workplace violence, terrorism, employee sabotage & arson. The time to prepare for an emergency is before it happens and this is the best program to train your supervisors to properly prepare and effectively respond.	E34	DVD	33 min
Fire/Disaster	Disaster Preparedness	<b>Emergency Preparedness - An Employee's Responsibility</b>	This Program is comprehensive and will educate your workforce about how they can prepare for disasters such as floods, fires and hurricanes and how they can help prevent the impact of workplace violence, terrorism and arson. This program is a great way to raise awareness in your company and ensure that your employee's know what to do when disaster strikes. Proper preparedness can help minimize the loss of life and property should a disaster occur.	E33	DVD	25 min
Fire/Disaster	Disaster Preparedness	<b>Emergency Preparedness At Home</b>	Video is designed to explain how to prepare for emergencies in the home. What actions to take before, during & after an earthquake, tornado, hurricanes or other emergencies.	E35	DVD	9 min
Fire/Disaster	Disaster Preparedness	<b>Fire Escape: Getting out Alive</b>	The best way to survive a fire is to have a fire escape plan. Plan ahead, so you can get out alive.	F 7	VHS DVD	5 min
Fire/Disaster	Disaster Preparedness	<b>Fire In America</b>	Many of this country's most devastating and destructive fires are examined here, with background on each fire, their ignition, spread and loss of life and property. Also serves as a strong argument for improved protection systems regulations and prevention education.	F40	VHS	30 min
Fire/Disaster	Disaster Preparedness	<b>Fire Prevention in the Office</b>	Year after year office fires cause millions of dollars in damage and result in hundreds of employee injuries. Teach your employees the steps to help prevent office fires and what to do in case of a fire emergency.	F42	DVD	14 min
Fire/Disaster	Disaster Preparedness	<b>Hurricanes: Tornadoes &amp; Floods</b>	You can reduce the damage to property and protect the lives of your family from the devastating effects of natural disasters such as hurricanes, tornadoes and flood. Topics include: being prepared; emergency kits; watches and warnings; evacuation tips; emergency procedures.	H26	VHS	17 min
Fire/Disaster	Disaster Preparedness	<b>I Plan to Live: Emergency Planning</b>	The friendly but accident-prone planet of Infernia is about to destroy itself. They have no idea what to do in an emergency. Observe an Emergency Action plan in action. Safety Shorts.	I 1	VHS	5 min
Fire/Disaster	Disaster Preparedness	<b>Mail Bombs + Contingency Planning Guide</b>	To protect the public and many postal employees who handle the mail daily, mail bombs are afforded one of the Postal Inspection Service's highest priorities, receiving immediate task force attention. The first part of the video covers background & introduction, the second part covers characteristics & security.	M18	VHS	30 min
Fire/Disaster	Disaster Preparedness	<b>Planning for Disaster: Earthquakes</b>	How to strengthen your facility's readiness by preparing in advance; how to prepare your employees while minimizing losses. Focus: preparedness, response, recovery.	P 5	VHS DVD	8 min
Fire/Disaster	Disaster Preparedness	<b>Planning for Disaster: Floods</b>	This video will help you protect your employees and your assets, and will help you minimize losses in the case of devastating floods. Includes: securing your facility; assembly and evacuation; recovering after the flood.	P 6	VHS	8 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Fire/Disaster	Disaster Preparedness	<b>Planning for Disaster: Hurricanes</b>	This video will help you protect your employees and your assets, and will help you minimize losses in the case of hurricanes. Includes: securing your facility; assembly and evacuation; recovering after the storm.	<b>P 7</b>	VHS	8 min
Fire/Disaster	Disaster Preparedness	<b>Planning for Disasters: Tornadoes</b>	This video will help you protect your employees and your assets, and will help you minimize losses in the case of tornadoes. Includes: securing your facility; assembly and evacuation; recovering after the twister.	<b>P 8</b>	VHS	10 min
Fire/Disaster	Disaster Preparedness	<b>Severe Weather Alert - Are You Prepared?</b>	Talks about different types of weather and what you can do to be prepared.	<b>W27</b>	DVD	12 min
Fire/Disaster	Disaster Preparedness	<b>Ticking Bombs Preparedness</b>	Presents an inter-disciplinary Crisis Management model for handling a serious violent incident. Include legal aspects of preparedness, defining an incident that calls for crisis management, organizing for post-incident handling, understanding victim reaction, providing counseling, dealing with the press, post-incident legal issues and how to return to full productivity. CorVision Media.	<b>T16</b>	VHS	18 min
Fire/Disaster	Disaster Preparedness	<b>What to do About Workplace Emergencies</b>	Packed with vital information to ensure safety in a workplace emergency. Focuses on establishing an Emergency Action Plan and written policies and procedures. Earthquakes, fires, tornadoes, hurricanes, bomb threats, chemical spills, biological threats, workplace violence, Blood borne pathogens, hazardous chemicals, MSDS and labeling, extinguishers, emergency drills, planning testing and reporting.	<b>W22</b>	VHS	17 min
Fire/Disaster	Electrical	<b>Electrical Safety/Fire Protection/Fire Extinguishers</b>	Designed for staff personnel, custodians, facility maintenance and fleet maintenance personnel. A complete training review of fire prevention and electrical safety. Don Brown.	<b>E31</b>	VHS	15 min
Fire/Disaster	Extinguishers	<b>Fire Extinguisher Training (Using Fire Extinguishers)</b>	Every year fires cause hundreds of millions of dollars in damage and results in hundreds of employee injuries, even death if the proper precautions aren't taken. This informative DVD teaches employees the proper way to use a fire extinguisher.	<b>F44</b>	DVD	20 min
Fire/Disaster	Extinguishers	<b>Fire Extinguisher Training and Use</b>	Covers: Checklist for monthly extinguisher inspections and guidelines; extinguisher classification, Use: PASS method, tips and safety; Fire prevention: housekeeping, flammable storage, electrical inspections, and fire hazards.	<b>F 8</b>	VHS DVD	14 min
Fire/Disaster	Extinguishers	<b>Fire Extinguisher: Safety on the Job</b>	Teaches the RACE Procedure - Rescue, Alarm, Contain, and Extinguish. The 4 types of extinguishers are shown, the fires each works on and how to safely operate and maintain them. Emphasizes that the best way to stop a fire is to prevent it. Aims.	<b>F34</b>	VHS	23 min
Fire/Disaster	Extinguishers	<b>Fire Extinguishers</b>	Educates employees on the classifications of fire extinguishers, the type of fire for which they are suited, demonstrates proper use and federal requirements for storage and maintenance of extinguishers. Summit Training Source.	<b>F41</b>	DVD	5 min
Fire/Disaster	Extinguishers	<b>Know Your ABC's: Fire Extinguishers</b>	An industrial or construction site can house dangerous fire hazards. Different types of fire extinguishers and their appropriate uses are discussed. <i>(also in Spanish - 012)</i>	<b>K 2</b>	VHS	5 min
Fire/Disaster	Injury	<b>If You Could See Me Now</b>	Burn victims - still carrying scars from their own particular mistakes - recount incidents that led to their disfigurement. A strong motivator for both fire safety and fire prevention.	<b>F38</b>	VHS	20 min
Hazardous Materials	Asbestos	<b>Asbestos Safety</b>	For asbestos safety awareness. The Idea Bank.	<b>A 7</b>	VHS DVD	5 min
Hazardous Materials	Asbestos	<b>The Asbestos Threat</b>	Designed for general safety awareness. It explains what asbestos is, where it's found and what everyone can do to reduce their exposure to this cancer causing substance. It includes work settings, schools, home and other structures.	<b>A 6</b>	VHS	8 min
Hazardous Materials	Chemicals	<b>Bonding &amp; Grounding of Flammable Liquid Transfers</b>	Explains the need for properly grounding during the transfer of flammables, including a basic discussion of static electricity and the hazard it creates. Discusses bonding and grounding to eliminate electric potential and pre-transfer steps.	<b>B15</b>	VHS	8 min
Hazardous Materials	Chemicals	<b>Chemical and Biological Threat</b>	Video addresses the threat of terrorist attacks involving chemical or biological agents and how businesses and individuals can reduce potential risk. Safety Source.	<b>C 7</b>	VHS	20 min
Hazardous Materials	Chemicals	<b>Chemical Safety</b>	Basic chemical safety for those employees who use, handle, store and dispose of chemicals in the workplace. Meets general training requirements, aimed at those not in a heavy chem. environment, who use small amounts of chem. in their everyday work.	<b>C 9</b>	VHS	5 min
Hazardous Materials	Chemicals	<b>Chemical Spills, Leaks &amp; Clean-up Operations</b>	Meets requirements for training employees in basic spill and clean-up procedures. Emphasis is on individual safety, proper equipment and general safety rules. Don Brown.	<b>C30</b>	VHS	11 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Chemicals	<b>Flammables, Combustibles &amp; Explosives</b>	Reminds workers that these chemicals are a serious hazard on the job and must always be treated with respect. Gives examples of situations when working with chemicals followed by correct and safe practices. The Training Network.	<b>F25</b>	VHS	14 min
Hazardous Materials	Chemicals	<b>Fueling a Machine</b>	Refueling a machine can be highly dangerous. This video recreates a near-fatal accident as an example of what can happen when you take shortcuts and ignore safe work procedures. Safety Shorts. <i>(also in Spanish - 009)</i>	<b>F24</b>	VHS	5 min
Hazardous Materials	Chemicals	<b>Handling and Using Flammable Liquid</b>	Covers the Safe handling of flammable and volatile liquids.	<b>F39</b>	VHS	10 min
Hazardous Materials	Chemicals	<b>He's not the Man I Married. Could it be Lead?</b>	Motivational video for workers on lead safety in English and Spanish.	<b>L15</b>	VHS DVD	17 min
Hazardous Materials	Chemicals	<b>Hydrogen Sulfide Training</b>	Good for Sewer Plant application. Hydrogen sulfide is one of the most deadly industrial gases. It has been referred to as a silent killer. Covers a wide range of topics including characteristics of H2S, monitoring areas for H2S levels, emergency procedures, hazard minimization, contingency planning, SO2 and more. Safety Source. (Nice Dramatization of leaving your co-worker to get emergency equipment towards the end)	<b>H27</b>	VHS	20 min
Hazardous Materials	Chemicals	<b>Industrial Gases</b>	Will help those who work with industrial gases to handle, transport, and store them safely. Covers cylinders, physical and chemical properties, effects they have on fire, container inspection guidelines, safety devices and emergency procedures. NFPA.	<b>H37</b>	VHS	15 min
Hazardous Materials	Chemicals	<b>It Happened to Me, It Could Happen to you</b>	A safety message from Mike Pryor. For anyone who works with or around chemicals, a first hand account by a worker, telling the story of his accident that caused serious chemical burns over most of his body. Will encourage workers to wear the required PPE, no matter what the job. Advantage video Assoc.	<b>C33</b>	VHS	21 min
Hazardous Materials	Chemicals	<b>Just Say No to Anything That Glows</b>	What glows in the dark and wears a hard hat? The worker who doesn't know how to store hazardous materials. Explore how to make dealing with hazardous materials a kinder and gentler ordeal.	<b>J2</b>	VHS	5 min
Hazardous Materials	Chemicals	<b>Lab Safety: 1 Chemical Hazards</b>	Laboratory workers are routinely exposed to hazardous chemicals. Safe work practices help keep exposures below limits and protect workers from health hazards.	<b>L 1</b>	VHS	5 min
Hazardous Materials	Chemicals	<b>Lab Safety: 2 Potential Hazards</b>	Laboratory worker routinely face physical hazards that can cause serious injury, and even death.	<b>L 2</b>	VHS	5 min
Hazardous Materials	Chemicals	<b>Lead Hazards</b>	The dangers of lead poisoning are described in detail...how it enters the body, symptoms of lead poisoning, reducing risk of exposure, respirator protection and protective equipment. Coastal.	<b>L19</b>	VHS	18 min
Hazardous Materials	Chemicals	<b>Lead In Paint Can Be Deadly</b>	Lead in house paint is an often unrecognized danger to adults and children. Be aware of the dangers and how to avoid them.	<b>L 6</b>	VHS DVD	5 min
Hazardous Materials	Chemicals	<b>Lead! Treat it with Respect.</b>	Designed to reduce lead exposure, this video covers safe exposure levels, monitoring, protective equipment, engineering controls and medical surveillance. Also discusses various health threats from lead, symptoms of lead exposure, body areas affected, exposure limits, emergency response, and housekeeping practices. Coastal.	<b>L16</b>	VHS	17 min
Hazardous Materials	Chemicals	<b>NFPA Hazardous Materials Labeling and Identification</b>	Covers the National Fire Protection Association Hazardous materials labeling method. With the importance of labels and their requirements; color coding; label location and differing degrees (classes) for each hazard type; safety precautions.	<b>N 4</b>	VHS	10 min
Hazardous Materials	Chemicals	<b>Pesticide Worker Safety Information</b>	*Supplement to written training. Topics include: Basic Label recognition, normal and protective work attire, re-entry interval, and symptoms of pesticide poisoning.	<b>P 4</b>	VHS	20 min
Hazardous Materials	Chemicals	<b>Propane Safety</b>	Safety procedures, personal protection equipment, fire prevention and more are reviewed in this film. Handling, storing and refueling portable propane cylinders are examined as well. Safety Source.	<b>P26</b>	VHS	10 min
Hazardous Materials	Chemicals	<b>Safely Using Compressed Gas Cylinders</b>	For workers who handle compressed gas cylinders, this program covers hazards, labels, warning signs, moving and storing. Don Brown.	<b>C29</b>	VHS	10 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Chemicals	<b>The Invisible Killer: Carbon Monoxide</b>	Carbon Monoxide in the workplace is an invisible killer that strikes without warning. Learn to recognize its symptoms and first aid procedures to help anyone overcome. <i>(also in Spanish - 003)</i>	<b>C 3</b>	VHS DVD	5 min
Hazardous Materials	Chemicals	<b>Toxics &amp; Poisons</b>	The potentially serious effects toxic substances have on the human body and explain effective safety precautions that apply to toxic chemicals and poisonous chemicals. Marcom.	<b>T15</b>	VHS	12 min
Hazardous Materials	Chemicals	<b>Working With Pesticides Series Vol. 1</b>	Safe storage and disposal methods.	<b>W14</b>	VHS	15 min
Hazardous Materials	Chemicals	<b>Working With Pesticides Series Vol. 2</b>	Infield clothing, equipment and environmental safety.	<b>W15</b>	VHS	15 min
Hazardous Materials	Chemicals	<b>Working With Pesticides Series Vol. 3</b>	Calibrating, mixing and applying pesticides.	<b>W16</b>	VHS	15 min
Hazardous Materials	Chemicals	<b>Working With Pesticides: Sprayer Operation/ Maintenance Guidelines - Vol. 3</b>	Shows thorough equipment inspections, cleaning procedures, proper working attire, different types of tanks and a basic checklist for equipment safety	<b>W17</b>	VHS DVD	15 min
Hazardous Materials	Eye Protection	<b>Eye Injuries - 3-D</b>	Every day, an estimated 1,000 eye injuries occur in American workplaces. This 3-D video illustrates risks of eye injuries and basic guidelines for prevention. Safety Shorts	<b>E21</b>	VHS	5 min
Hazardous Materials	Eye Protection	<b>Eye Protection A New Approach</b>	Covers basic eye protection. Don Brown. <i>(also in Spanish - 030)</i>	<b>E22</b>	VHS DVD	13 min
Hazardous Materials	Eye Protection	<b>HIGH IMPACT: Eye Protection</b>	Can safety glasses save your eyes? Most accident can be prevented by simply wearing proper eye protection. Employees will make a new commitment to eye safety when they see real accidents recreated.	<b>E23</b>	VHS DVD	19 min
Hazardous Materials	Eye Protection	<b>My Precious Eyes</b>	Video discusses diseases of the eye, approved eye protection, and eye injury prevention. Graphic video shows a variety of eye traumas, eye diseases, and motivating scenes of eye injuries. Includes emergency treatment for different types of eye injuries. Good, solid information for eye injury prevention.	<b>M17</b>	VHS DVD	14 min
Hazardous Materials	General Safety	<b>An Employee's Guide to Working With Hazardous Materials</b>	This video explains the different types of hazards, health or physical. It reviews different types of warning labels and discusses how to read MSDS. It reviews hazard protections, preventions and detection and gives warning signs of possible hazards.	<b>E18</b>	VHS	12 min
Hazardous Materials	General Safety	<b>Hazmat - Decontamination</b>	Isolate, define, entry, identify, decontamination.	<b>H50</b>	VHS	15 min
Hazardous Materials	Handling/Transporting	<b>Control &amp; Prevention of Spills</b>	This 2-part program covers procedures using live-action scenes of a spill containment and clean-up. Proper storage, handling and inspection of containers are shown. Also tells how to inspect containers for wear and corrosion, check lids and hoses for leaks and cracks and recognize the warning signs to prevent a spill from occurring. Summit.	<b>S55</b>	VHS	23 min
Hazardous Materials	Handling/Transporting	<b>Drum &amp; Other Small Spills</b>	Covers controlling, containing and clean-up. Identify the spilled material, evaluate the hazards, establish communication, ensure people are protected, implement control, contain and clean-up. Industrial Training Syst. Corp.	<b>H45</b>	VHS	15 min
Hazardous Materials	Handling/Transporting	<b>Hazardous Chemicals</b>	Tells how to transport, handle and store hazardous chemicals safely. Covers potential hazards types of chemicals, labeling systems, PPE, procedures for handling a small spill or leak and the importance of following an emergency response plan. NFPA.	<b>H36</b>	VHS	15 min
Hazardous Materials	Handling/Transporting	<b>Hazardous Materials Regulations: Overview</b>	Transporting hazardous materials (hazmat) can pose serious threats to public safety.	<b>H15</b>	VHS	5 min
Hazardous Materials	Handling/Transporting	<b>Hazmat Transportation - Handling Non-bulk Packages</b>	There are over 35 different types of labels used to identify the specific hazards associated w/hazardous materials. Covers: What is non-bulk packaging, selecting the proper non-bulk packaging, and transporting non-bulk packaging. Summit.	<b>H42</b>	VHS	10 min
Hazardous Materials	Handling/Transporting	<b>Hazwoper Part 1: Training &amp; Information</b>	The US Dept. of Transportation has established laws regulating the transportation and shipping of hazardous materials. To help reduce incidents involving employers and employees are required to know and follow HMR requirement.	<b>H16</b>	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Handling/Transporting	<b>Hazwoper First Responder - Operations Level Response</b>	Focuses on Level 2 Responders who are trained to contain the release from a safe distance, keep it from spreading and present expertise in other crucial areas. Hazard & Risk Assessment, PPE, Hazardous material terms, basic control, containment and confinement, basic decontamination and operating procedures. Coastal.	H51	VHS	20 min
Hazardous Materials	Hazardous Communications	<b>Facts About the Hazard Communication Standard</b>	Covers chemical hazard awareness, labeling, MSDS sheets.	F 2	VHS DVD	11 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communication</b>	Covers evaluation, proper labels, Maintaining MSDS, employee training, and a written plan. (Informative but dated clothing, hair)	H33	VHS	10 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communication - Right to Know (Solid Wastes)</b>	Looks at the laws in place to define hazards, safe handling of hazardous materials, addresses proper labeling, proper container usage, MSDS, and other controls. Don Brown.	H47	VHS	10 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communication for Janitors/Custodians</b>	Covers employee's rights and safety concepts, MSDS chemical labeling, storage, handling, chemical characteristics, and effects, necessary protection, spillage/leakage/accident procedures, first aid.	H 9	VHS	10 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communication for Office Personnel</b>	Basic hazard communication training program, but oriented to the office environment and the chemicals most closely associated with office. Don Brown.	H12	VHS	9 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communication: A Guide To Compliance</b>	Step-by-step video to keep your Right to Know program in compliance with the latest OSHA regulations. Whether you are setting up a program or have a well-established one in place, use this video to communicate compliance requirements to all supervisors in your company. Aura Pictures.	H 8	VHS	16 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communications</b>	This video talks about different types of hazards, labeling requirements, MSDS sheet, and the written plan for hazard communications. Don Brown.	H11	VHS	17 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communications Today</b>	Reviews evaluation of all chemicals, proper labels, maintaining MSDS sheets, employee training and a written plan. Summit.	H52	VHS	10 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communications Training</b>	Training is required for any chemical or material that poses a physical or health hazard. This video provides basic information and satisfies the requirements to Cal/OSHA. Includes: Manufacturer's directions, How to read Material Safety Data Sheets, mixing chemicals, personal protective equipment, potential health hazards, emergency first aid, clean-up of spills & leaks and disposal of hazardous waste.	H10	VHS	13 min
Hazardous Materials	Hazardous Communications	<b>Hazard Communications: Your Rights to Know</b>	MSDS sheets: explained by each section in detail and common chemical rules & regulations.	H14	VHS	12 min
Hazardous Materials	Hazardous Communications	<b>Hazmat Case Studies</b>	covers the Agway Fire Westbrook, ME, a chemical warehouse fire in Anaheim, Ca; a tanker-trailer accident in Benicia, Ca; and a train derailment in Livingston, La.	H34	VHS	30 min
Hazardous Materials	Hazardous Communications	<b>Hazwoper: Exposure Monitoring &amp; Medical Surveillance</b>	Discusses various types of exposure monitoring equipment and techniques. How equipment is used to evaluate the health of anyone who regularly works around hazardous chemicals. Includes direct-reading instruments, sampling collection devices, site characterization, general on-site monitoring, perimeter monitoring, medical surveillance programs, medical exams and written medical opinions. The Film Library.	H40	VHS	25 min
Hazardous Materials	Hazardous Communications	<b>Intro to Hazwoper Retraining</b>	Reminder for employees of the importance of identifying, evaluating and controlling chemicals hazards. Includes background of the regulations, the site safety and health plan, the Emergency Response Plan, site characterization and site control program, systems of controls and standard operating procedures, PPE, exposure monitoring, the medical surveillance program, decontamination and more. The Film Library.	H39	VHS	23 min
Hazardous Materials	Hazardous Communications	<b>Understanding Hazwoper</b>	Explains the regulations to help employees reduce or eliminate potential exposure to hazardous materials in their work environments. Included are the history of Hazwoper regulations, definitions of hazardous chemicals and waste, container labels, MSDS, site safety and health plan, medical surveillance program, decontamination and more. The Film Library.	H41	VHS	20 min
Hazardous Materials	Hazardous Communications	<b>What's Wrong With This Picture? Hazard Communication Training</b>	An innovative style holds the viewer's attention while providing the essential training and information needed to work with chemicals safely. Incorrect and correct chemical safety procedures are re-enacted in a wide variety of work settings.	W 6	VHS	17 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Hearing	<b>Hearing Conservation</b>	It is important to protect your hearing at work, at home and at leisure. Video includes ear function, testing, training and protection. <i>(also in Spanish - 034)</i>	<b>H18</b>	VHS DVD	12 min
Hazardous Materials	Hearing	<b>Hearing Protection</b>	Covers hazardous noise levels, how the ear works, the difference between sound and noise, and the importance of hearing protection. A quick quiz at the end.	<b>H32</b>	VHS	10 min
Hazardous Materials	Hearing	<b>Now Hear This</b>	Hearing loss caused by excessive noise may be permanent. Help protect your hearing by knowing how much noise is too much noise and by following requirements for hearing protection.	<b>N 5</b>	VHS DVD	5 min
Hazardous Materials	Personal Protective Equipment	<b>Air Purifying Respirators</b>	Explains this type of respirator, how it works, basic components, canisters or filters, types of hazards they work best against and more. Summit.	<b>R13</b>	VHS	11 min
Hazardous Materials	Personal Protective Equipment	<b>Air Supplying Respirators</b>	Covers the situations this type of respirator should be used for, the three main types (air line, self-contained breathing apparatus, and combination self-contained and air line), how to protect workers from hazards and more. Summit.	<b>R15</b>	VHS	11 min
Hazardous Materials	Personal Protective Equipment	<b>Animated Guide to Respiratory Protection</b>	This video talks about Respiratory Protection from an animated point of view. 3M.	<b>A10</b>	VHS	14 min
Hazardous Materials	Personal Protective Equipment	<b>Corrosives &amp; Irritants</b>	Why corrosives and irritants are hazardous and how to properly handle and store them. Stresses PPE, emergency first aid and clean-up treatments. Marcom.	<b>H35</b>	VHS	11 min
Hazardous Materials	Personal Protective Equipment	<b>Hand Safety</b>	The irreplaceable tools.	<b>H 3</b>	VHS	15 min
Hazardous Materials	Personal Protective Equipment	<b>Murder On Your Hands</b>	Hand injuries account for nearly one-third of all workplace accidents. A parody of a 1940's detective movie is used to show the need for proper hand protection. Safety Shorts <i>(also in Spanish - 015)</i>	<b>M16</b>	VHS	5 min
Hazardous Materials	Personal Protective Equipment	<b>Personal Protective Equipment: General Industry</b>	Meet OSHA requirements in explaining Personal Protective Equipment for eye, head, hand, and foot injuries. This video also covers respirators, hearing and protective clothing.	<b>P16</b>	VHS DVD	17 min
Hazardous Materials	Personal Protective Equipment	<b>Radiation Hazards</b>	Distinguishes between several sources and types of radiation and the potential for harm. Also covers labeling and storage techniques, protective equipment and emergency disposal procedures. Marcom.	<b>R16</b>	VHS	11 min
Hazardous Materials	Personal Protective Equipment	<b>Respiratory Protection</b>	This video looks at the function of respirators, the situations where they are used as well as the types and the factors governing their use. Fit testing is examined in detail, including main problems. Safety Care Inc.	<b>R 3</b>	VHS DVD	15 min
Hazardous Materials	Personal Protective Equipment	<b>Respiratory Safety &amp; Health</b>	Points out the importance of learning to recognize and guard against respiratory hazards. Covers the physiology of the respiratory system, common causes of respiratory problems, potential effects of respiratory hazards, safety practices and the selection, use and maintenance of safety equipment. Marcom.	<b>R14</b>	VHS	16 min
Hazardous Materials	Personal Protective Equipment	<b>Safety Gear: Foot Protection + Study Guide</b>	Three classifications of safety shoes are identified here. The functions of toe shields, metatarsal guards and puncture resistant soles are explained.	<b>S 9</b>	VHS	11 min
Hazardous Materials	Personal Protective Equipment	<b>Safety Gear: Respirators</b>	What happens to the body when workers breathe in chemical contaminants and are deprived of oxygen? This program will explain details and introduce different uses of air purifying and air supplying respirators, and will discuss the proper equip. Aims.	<b>S10</b>	VHS	12 min
Hazardous Materials	Personal Protective Equipment	<b>Save Your Breath</b>	Covers basic safety and health issues regarding to respirator types uses and care. Marcom.	<b>R19</b>	VHS	10 min
Hazardous Materials	Personal Protective Equipment	<b>SCBA Care &amp; Maintenance: The Time is Now!</b>	The importance of SCBA apparatus is demonstrated, stressing respiratory hazards, maintenance, selection of the right gear for the job, fitting and adjusting and safety training. Coastal.	<b>S53</b>	VHS	15 min
Hazardous Materials	Personal Protective Equipment	<b>Selection &amp; Use of Protective Equipment</b>	Shows how to select the appropriate personal protective equipment for the job. Covers the various body areas that must be protected, specific vulnerabilities of each area, common types of PPE, equipment variations within each job, how to match equipment to job hazards, and the proper care and use of equipment. Marcom.	<b>P24</b>	VHS	15 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Personal Protective Equipment	<b>Skin Care and Safety</b>	This video teaches employees to prevent skin problems by being aware of hazards in the workplace, wearing appropriate protection and handling hazardous materials properly. Bureau of Business Practice.	<b>S25</b>	VHS	12 min
Hazardous Materials	Personal Protective Equipment	<b>The Skin Game</b>	Dermatitis is an uncomfortable & preventable skin problem. This video shows some of the avoidable causes, and puts forth some pre-emptive safety solutions. Safety Shorts.	<b>S26</b>	VHS	5 min
Hazardous Materials	Personal Protective Equipment	<b>The Survival Game Coaching on PPE</b>	Mixing humor (game-show style) and information, this program covers the areas of vulnerabilities of body parts that require protection, protective equipment, variations with types of equipment, matching the equipment to the hazard and proper use of the equipment. Marcom.	<b>P25</b>	VHS	15 min
Heavy Equipment	Cranes/Lifts	<b>A Lift To Safety</b>	Proper procedures for a safe lift are reviewed. Safety Shorts.	<b>L 8</b>	VHS	5 min
Heavy Equipment	Cranes/Lifts	<b>Aerial Lifts</b>	Aerial lifts provide an easy means to reach work sites above the ground by supplying a level platform to stand on, but they are not accident proof. Summit.	<b>A12</b>	VHS	10 min
Heavy Equipment	Cranes/Lifts	<b>Anatomy of a Lift Crane Safety II</b>	Guaranteed to reduce the occurrence of employee unsafe acts, thereby eliminating the majority of accidents. This video provides employees with a thorough understanding of the concept of unsafe acts and how they contribute to accidents. Safety Shorts.	<b>A 4</b>	VHS	5 min
Heavy Equipment	Cranes/Lifts	<b>Bucket Trucks</b>	Bucket Truck: one type of aerial lift device used to allow workers to gain access to heights. Key points in this video: Equipment design - hazards - clear paths - load limits - personal protective equipment.	<b>B16</b>	VHS DVD	5 min
Heavy Equipment	Cranes/Lifts	<b>Crane Operator Safety</b>	General information on how to operate a crane.	<b>C19</b>	VHS	12 min
Heavy Equipment	Cranes/Lifts	<b>Crane Safety: Outrigger Support &amp; Stability</b>	Workers may be at risk of serious injury or death when a crane tips or overturns. To help avoid accidents, use outriggers and adequate mats as needed to support and stabilize cranes. Safety Shorts.	<b>C20</b>	VHS	5 min
Heavy Equipment	Cranes/Lifts	<b>Cranes, Chains, Slings &amp; Hoist Safety</b>	Designed for anyone operating jib hoists or cranes, this video explains sling angles, safety techniques, inspection procedures and more.	<b>C21</b>	VHS	12 min
Heavy Equipment	Cranes/Lifts	<b>Hazard Awareness in Crane Operating Areas</b>	Alerts operators, riggers and other trades to hazards in crane operating areas. Topics include overhead power lines, proximity of other equipment, ground conditions, and proper use of outriggers. Special interest is the section on load weights and crane capacities. Construction Safety Association Of Ontario.	<b>C37</b>	VHS	15 min
Heavy Equipment	Cranes/Lifts	<b>Hoists, Winches &amp; Related Devices</b>	This video focuses on hoists, come-along, grip hoists, electrically powered trolleys and powered winches (muggers). Choosing proper anchorage points and the effect of direction and load. Construction Safety Association of Ontario.	<b>H44</b>	VHS	20 min
Heavy Equipment	Cranes/Lifts	<b>International Hand Signal (Crane Safety Related)</b>	Signalers are required for a crane operator that does not have a clear view of the machine, load or landing area, judging distance is difficult, or live electrical apparatus or wires are in the area. Reviews hand signals required for communication, in each case the signal is demonstrated from the operator's viewpoint and the corresponding crane action is shown. Construction Safety Association of Ontario	<b>S54</b>	VHS	7 min
Heavy Equipment	Cranes/Lifts	<b>Mobile Crane Safety</b>	For all mobile cranes regardless of type or situations. Gives operators all they need to know about pre-op set-up, load charts, safe work practices, the three-point method of mounting and dismounting and their responsibility for safety of co-workers and themselves. Summit.	<b>C43</b>	VHS	18 min
Heavy Equipment	Cranes/Lifts	<b>Overhead Crane Safety</b>	Covers safe operation and procedures, the importance of pre-operation safety checks, and the terminology relating to overhead cranes. Stresses knowing the limitations of the crane, responsibility of the operator and emergency procedures. Summit.	<b>C38</b>	VHS	18 min
Heavy Equipment	Cranes/Lifts	<b>Overhead Cranes</b>	Overhead Cranes can inflict injuries if misused or abused. To help avoid accidents, follow procedures for inspection, safe operation and preventive maintenance.	<b>O 9</b>	VHS	5 min
Heavy Equipment	Cranes/Lifts	<b>Radio Controlled Crane Safety</b>	Discusses the advantages of these cranes over other types. Stresses the importance of knowing your position in relation to the crane, pre-op safety checks including the hoist limit switch, status lights, etc. Summit.	<b>C35</b>	VHS	15 min
Heavy Equipment	Cranes/Lifts	<b>Rigging Equipment Inspecting for Safety</b>	Emphasizes the importance of making sure that equipment is in safe condition before it is used. Describes the kinds of wear and damage to look for, when to tag the equipment out of service and presents highlights of periodic, detailed inspections.	<b>R18</b>	VHS	16 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Heavy Equipment	Cranes/Lifts	<b>Signal, The Universal Hand Signal</b>	When working around cranes, knowing the proper way to direct them is essential. Widely used international hand signals for directing cranes are reviewed. Safety Shorts. <i>(also in Spanish - 024)</i>	<b>S23</b>	VHS	5 min
Heavy Equipment	Cranes/Lifts	<b>Up, Up &amp; Aware</b>	The tricks and hazards working with Aerial and other types of lifting platforms are shown. Safety Shorts.	<b>U 6</b>	VHS	5 min
Heavy Equipment	Cranes/Lifts	<b>Working On Aerial Lifts, Cranes and Swing Stages</b>	The thousands of people who are injured each year from falls may lack training or experience; be careless or overconfident; or fail to use equipment properly. This program shows how to safely operate aerial lifts, cranes, and swing stages.	<b>W10</b>	VHS DVD	15 min
Heavy Equipment	Forklift	<b>Basic Forklift Principles</b>	Gives a basic overview of mechanical components, the lifting principle and safe operating techniques. Coastal.	<b>F36</b>	VHS	14 min
Heavy Equipment	Forklift	<b>Battery Changing &amp; Refueling (Forklifts)</b>	Covers safe removal and recharging of batteries, best safety practices for fuel-powered forklifts and PPE.	<b>F33</b>	VHS	11 min
Heavy Equipment	Forklift	<b>Danger: Hazardous Duty Loading Docks</b>	Loading docks and warehouses are among the most dangerous areas in the workplace. Hapless Hal learns a few important things about safety while working in these areas. <i>(also in Spanish - 004)</i>	<b>D 2</b>	VHS	5 min
Heavy Equipment	Forklift	<b>Forklift and Pedestrian Safety</b>	More injuries happen to those around forklifts than to operators. Educate both drivers and those who work around the proximity of forklifts.	<b>F22</b>	VHS	14 min
Heavy Equipment	Forklift	<b>Forklift Driving Skills</b>	Discusses 3 main topics: The importance of driver safety; potential accident areas; and how to prevent accidents. Makes the point that speed is the most common cause of forklift accidents.	<b>F19</b>	VHS DVD	7 min
Heavy Equipment	Forklift	<b>Forklift Driving Skills</b>	Covers Basic Driving Skills, conditions, load techniques, and proper parking skills.	<b>F28</b>	VHS	10 min
Heavy Equipment	Forklift	<b>Forklift Load Capacity...</b>	Discusses the three-point suspension system; load capacity; fulcrum, and combined center of gravity. (Safety supervisor may want to point out that operators are not wearing their seatbelts, and one fails to look back when loading.)	<b>F20</b>	VHS DVD	5 min
Heavy Equipment	Forklift	<b>Forklift Operator Safety Training</b>	Covers safety topics that are critical to avoiding accidents and injuries, including general safety, pre-operation, operation, load handling, fuel/battery maintenance, and specializing units.	<b>F27</b>	VHS DVD	27 min
Heavy Equipment	Forklift	<b>Forklift Safety</b>	Forklifts are powerful equipment your employees must respect. This video covers: engineering principles, operator training, work basket, parking regulations, safety operator rules, trailer checks, ramp safety, and operator maintenance. Slightly out of date, but good info.	<b>F18</b>	VHS DVD	19 min
Heavy Equipment	Forklift	<b>Forklift Safety OSHA Final Rule</b>	Specialized training and certification of all operators; Safe operating procedures: mounting, spotters, inclines, parking; Forklift stability: center of gravity, operating surfaces; Refueling common types of forklifts. The Training Network.	<b>F26</b>	VHS	17 min
Heavy Equipment	Forklift	<b>Forklift Safety: The Professional Driver</b>	The speaker talks about several forklift accidents. (Dated hair and attire but good music)	<b>F29</b>	VHS	10 min
Heavy Equipment	Forklift	<b>Lift Truck: Inspections &amp; Emergency Procedures</b>	Reviews inspection and emergency procedures. NSC & Weyerhaeuser.	<b>F30</b>	VHS	11 min
Heavy Equipment	Forklift	<b>Lift Truck: Safe Operating Rules</b>	Reviews safe operating rules. NSC & Weyerhaeuser.	<b>F31</b>	VHS	25 min
Heavy Equipment	Forklift	<b>On the Up and Up Forklift Safety</b>	Good information on forklift safety presented humorously. Good video. The Film Library.	<b>F35</b>	VHS	15 min
Heavy Equipment	Forklift	<b>Operating a Forklift Safely</b>	Knowledge, skills and confidence. Reviews working knowledge of forklift and safe operation. Pre-use inspection, proper handling of battery and propane, rated capacity, and basic operating techniques.	<b>F37</b>	VHS	10 min
Heavy Equipment	Forklift	<b>Safe Operation of Pendant Controlled Cranes</b>	This video covers: operator safety, operational checks, safe operation. It has good basics, although it is an older video. (Safety Managers Note: The narration calls for 2 wraps on the drum to be lifted; code says 3)	<b>S 5</b>	VHS	8 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Heavy Equipment	Forklift	<b>Safety of People &amp; Equipment in Warehouse Operations</b>	How forklift operators can co-exist with other personnel. Emphasizes individual responsibility for safety of all workers, not just the equipment operators. Don Brown.	<b>W25</b>	VHS	10 min
Heavy Equipment	Forklift	<b>Updated Forklift Operator Training</b>	This video is comprehensive and helps meet OSHA training requirements for forklift operators. General safe operating procedures, engineering principles, centers of gravity, fulcrum points, raised loads, rear wheel steering and more. A great program for training operators on the new regulations.	<b>U 7</b>	VHS	19 min
Heavy Equipment	Forklift	<b>Upright Safety: Portable Personnel Lift Training</b>	Subject to availability, Instructor Video: General safety rules for operating a Portable Personnel Lift (Aerial Man Lift-Non Self Propelled). Good information.	<b>U 5</b>	VHS	11 min
Heavy Equipment	T-L-B	<b>Backhoe Safety</b>	Focusing on tractor-loader backhoes, this program is filled with real-world tips and advice on safe backhoe operation. Pre-inspection/start-up hazards, safety loading, transporting and unloading trailers, safe work practices for crew personnel, proper positioning, excavation techniques and emergency procedures.	<b>B21</b>	VHSDVD	18 min
Heavy Equipment	T-L-B	<b>Backhoe/Loader Operations</b>	General safety practice and operating rules for anyone assigned the job of operating backhoe loader. Explains basic operator maintenance procedures.	<b>B 5</b>	VHS DVD	10 min
Heavy Equipment	T-L-B	<b>Large Equipment Landscape Equip. Safety</b>	Covers safe operating techniques for tractor, loaders and backhoes. Includes checklist for equipment safety, job site inspection, proper working attire and accessories. The Idea Bank.	<b>L 5</b>	VHS	20 min
Heavy Equipment	T-L-B	<b>Tractor Loader Backhoe</b>	T-L-B workers are in the center of countless hazards. A 360 degree perspective can keep you safe. Discussed: visibility, use of the 'one call' system, on and off safety, stabilizers and weight distribution. <i>(also in Spanish - 025)</i>	<b>T 6</b>	VHS	5 min
Off the Job Safety	Handguns, Hunting	<b>Firearm Safety Begins In the Home</b>	Every family member needs to know proper means of handling firearms. Video covers common bad habits and ways to correct them.	<b>F 6</b>	VHS	22 min
Off the Job Safety	Handguns, Hunting	<b>Handgun Safety</b>	Each Year approximately 1,000 American's will die from handgun accidents. A few simple, important rules for handgun safety are covered.	<b>H 2</b>	VHS	5 min
Off the Job Safety	Handguns, Hunting	<b>The First Hunt</b>	Hunting can be an enjoyable sport that can last a lifetime for an entire family. The need for proper hunter safety instruction before taking that first shot is shown.	<b>F13</b>	VHS	5 min
Off the Job Safety	Holidays	<b>Hapless Hal's Holiday Hints</b>	Mishaps can quickly dampen your holiday spirit. Risks of fires, crime, and alcohol-related injuries increase during the holiday season. Hapless Hal illustrates ways to reduce these risks by making safety a holiday tradition.	<b>H 6</b>	VHS	5 min
Off the Job Safety	Holidays	<b>Holiday Hazards in The Home</b>	This program describes some of the hazards unique to the Christmas holiday season. Toxic plants, dangerous toys, poisonous look-alikes, fire hazards, and safety tips are discussed in detail. Aims.	<b>H20</b>	VHS	12 min
Off the Job Safety	Home	<b>Home Safety</b>	Make your home a "Safe Haven". Video alerts you to common safety hazards that could be present in your home and includes tips to help you eliminate them. Copy 1 includes CD with interactive home safety test. Copy 2 is a video only.	<b>H31</b>	VHS	10 min
Off the Job Safety	Home	<b>Swimming Pool Safety</b>	Talks about how to prevent and resolve accidents, basic pool maintenance and operation, swimming pool guidelines, and the danger of chlorine gas and leaks.	<b>S42</b>	VHS	20 min
Off the Job Safety	Recreation	<b>Off the Job Safety "Fun in the Sun"</b>	Entertaining as well as motivational, this video creates awareness for potential hazards and provides safety tips for warm weather activities. Includes boating, water skiing, jet skiing, roller blading and much more. Summit.	<b>O12</b>	VHS	18 min
Off the Job Safety	Recreation	<b>Sports Field Safety: A Video Guide for Groundskeepers</b>	Reduce athlete and spectator injuries on your public sports fields! Injury prevention guidelines are provided for baseball, football, soccer as well as track and field facilities.	<b>S32</b>	VHS	15 min
Off the Job Safety	Recreation	<b>The Picture Perfect Vacation</b>	Vacation preparation: for the home, family, car, on the road and destination.	<b>P 9</b>	VHS	14 min
Office	Air Quality	<b>Indoor Air Pollution</b>	Usually thought of as an outdoor problem, air pollution is also a common indoor hazard. The sources of indoor pollutants and steps to alleviate the problem are explained. Safety Shorts. <i>(also in Spanish - 010)</i>	<b>I 3</b>	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Office	Communicating Effectively	<b>Effective Telephone Communications</b>	Covers voice qualities, telephone techniques. Video does not include a workbook.	<b>E 6</b>	VHS DVD	13 min
Office	General Safety	<b>Employee Education: Safety in the Office</b>	This program illustrates the importance of picking up pencils, paper clips, and other objects that cause falls, and making sure that telephone and electrical cords aren't lying across pathways.	<b>E16</b>	VHS DVD	13 min
Office	General Safety	<b>Introduction to Safety Office Safety</b>	Offices accidents can and do happen. To prevent injuries, make safety your responsibility. Safety Short.	<b>I 8</b>	VHS	5 min
Office	General Safety	<b>Office Safety</b>	Employee awareness is the key to this film. It demonstrates how to create a safe office while reducing the chances of accidents and personal injury. Topics include" fire safety, protecting your back, toxic substance poisoning, and avoiding the dangers of CDT.	<b>O 1</b>	VHS	20 min
Office	General Safety	<b>Office Safety Basics</b>	Covers basic Safety for in and around the office.	<b>O10</b>	VHS	8 min
Office	General Safety	<b>Office Safety: Personal Workspace</b>	Clutter in the workplace often creates more than an eyesore - it can get in the way of safety. Stacks of paper, boxes, trash and other items that collect throughout the work area can be fire hazards and can even block safe exits. The importance of an orderly workplace and its role in keeping hazards to a minimum are explained.	<b>O 2</b>	VHS	5 min
Office	General Safety	<b>Safety Orientation In Office Environments</b>	This is a good overall video. It covers current regulations and deals with topics such as: engineering principles, operator training, work basket, parking regulations, safety operator rules, trailer checks, ramp safety, and operator maintenance. Aims.	<b>S14</b>	VHS	12 min
Safety Orientation	Communicating Effectively	<b>Communicating with Irate Customers</b>	Covers how to calm an angry customer and phone complaints. Does not include a workbook.	<b>C13</b>	VHS DVD	14 min
Safety Orientation	Communicating Effectively	<b>Communication is Selling</b>	Covers features and benefits, deadly sins of selling, handling objections and closing signals. Does not include a workbook.	<b>C14</b>	VHS	16 min
Safety Orientation	Communicating Effectively	<b>Conflict Communication Skills Video</b>	At some point in your work history, you will encounter some form of hostility. Whether it's an upset co-worker or a dissatisfied customer, your response can make the difference between a stressful work environment and a pleasant work environment.	<b>C16</b>	VHS DVD	14 min
Safety Orientation	Communicating Effectively	<b>Diversity and Discrimination</b>	Focuses on different forms of discrimination and how to avoid it. Employees will also learn how to work with different people and why a diverse work environment is important.	<b>D12</b>	VHS DVD	10 min
Safety Orientation	Communicating Effectively	<b>Effective Safety Meetings</b>	Get the most out of work-hours spent on training by sharpening your skills at creating highly effective safety meetings.	<b>E 5</b>	VHS	5 min
Safety Orientation	Communicating Effectively	<b>Professional Word Power</b>	Shows how to communicate effectively with customers. Topics include: Word difference, action words, sales vocabulary, and dirty words of selling. Does not include workbook.	<b>P21</b>	VHS	16 min
Safety Orientation	Communicating Effectively	<b>The Art of Questioning</b>	In today's competitive marketplace, providing superior service to both internal and external customers is critical to distinguishing yourself from the competition. This series of programs addresses communicating with the customer as an important sales act.	<b>A 5</b>	VHS DVD	16 min
Safety Orientation	Crime Prevention	<b>Crimes of Opportunity</b>	Protect yourself from becoming a victim at work or on the street. Segments show viewers what to do: if your car breaks down in an unfamiliar neighborhood, if you feel like you're being followed, if faced with an armed assailant, and more. The Idea Bank.	<b>C22</b>	VHS	30 min
Safety Orientation	Crime Prevention	<b>Violence In the Workplace</b>	Violence in the workplace is on the rise. Precautions include recognizing the potential for violence and knowing what to do in the event of an attack.	<b>V 3</b>	VHS DVD	7 min
Safety Orientation	Crime Prevention	<b>Violence In the Workplace: Raising Your Employees' Awareness</b>	Helps employees understand the different forms of violence, the warning signs of potential violence, and what to do if a violent - or potentially violent situation arises. Also covers the benefits of a non-hostile work environment. Leader Guide. JJ Keller.	<b>V 5</b>	VHS	10 min
Safety Orientation	Crime Prevention	<b>Violence on the Job</b>	Homicide in the workplace is the third leading cause of job-related fatalities and the second leading cause of job-related fatalities for women. Discusses practical measures for identifying risk factors for violence at work, and taking strategic action to keep employees safe. It is based on extensive NIOSH research, supplemented with information from other authoritative sources. NIOSH.	<b>V 6</b>	DVD	27 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Safety Orientation	General Safety	<b>A Million Excuses</b>	This engaging video presents common excuses to avoid safety procedures and responses to those excuses. Set in a variety of industrial settings, workers learn the importance of eye protection, chemical safety, safe lifting techniques, and safety policies & procedures.	<b>M23</b>	DVD	10 min
Safety Orientation	General Safety	<b>Accidents: The Gory Story</b>	Tells workers that accidents don't just happen...they're caused. Contains gory pictures of persons injured in the workplace. Will have a definite impact on workers proving that injuries can be very serious.	<b>A13</b>	VHS	10 min
Safety Orientation	General Safety	<b>Administrated Employee Safety Orientation</b>	A general safety awareness video that hits on several different subjects: property clothing, lifting, machine guards, fire prevention, slips, trips and falls, ladder safety, home safety, chemical safety, labels, electrical and shock prevention, plus more.	<b>A 3</b>	VHS DVD	14 min
Safety Orientation	General Safety	<b>Book 'em Danno</b>	This humorous takeoff shows a 1940s-style private investigator that reports to work early and walks around the workplace detecting numerous hazards. Will lighten any safety training program, yet improve safety awareness for all employees. Don Brown.	<b>D29</b>	VHS	14 min
Safety Orientation	General Safety	<b>Developing a Passion for Safety</b>	Taped live with an audience of Safety Engineers in Honolulu, HI, Art Fettig talks about SCHINDLER'S LIST and keeping your passion for safety alive every day. Art Fettig's Growth Unlimited Inc.	<b>D 6</b>	VHS	32 min
Safety Orientation	General Safety	<b>Employee Safety Training</b>	SB 198. Use this video as you introduce your Injury/Illness Prevention Program. Get common sense instruction about proper work procedures, safety rules, proper dress and protective clothing, good housekeeping, lifting, slips, trips, falls and more.	<b>E17</b>	VHS DVD	12 min
Safety Orientation	General Safety	<b>Introduction to Safety: Warehouse Industry</b>	Warehouses can be dangerous because there is so much activity. To help prevent accidents, stay alert for hazards and use safe work practices for materials handling. Safety Shorts.	<b>I 6</b>	VHS	5 min
Safety Orientation	General Safety	<b>It Only Takes a Second</b>	This video is designed to grab the viewer's attention and focus their thoughts on safety. It is a tool to set the stage for discussion on nearly any safety issue.	<b>I 7</b>	VHS	3 min
Safety Orientation	General Safety	<b>Just Horsing Around</b>	Joking around on the job is no laughing matter. The video shows what can happen if a job is not taken seriously. <i>(also in Spanish - 011)</i>	<b>J 1</b>	VHS	5 min
Safety Orientation	General Safety	<b>Lighting Up Your Life</b>	How much light is too much, or not enough? A semi-humorous light is cast on the topic of safe lighting tips and techniques.	<b>L10</b>	VHS DVD	5 min
Safety Orientation	General Safety	<b>Outdoor Safety: Critters and Plants</b>	The beauty and tranquility of the outdoor world may be dangerously deceptive to the unwary and uninformed. Two surveyors learn valuable lessons in outdoor safety.	<b>O 8</b>	VHS DVD	5 min
Safety Orientation	General Safety	<b>Personal Protective Equipment</b>	This comprehensive DVD stresses the importance of assessing the hazards prior to personal protection equipment selection, and demonstrates proper use of equipment, including: hard hats, respirators, protective clothing, eye protection, shoes, gloves, and more. Summit.	<b>P28</b>	DVD	6 min
Safety Orientation	General Safety	<b>Power Equipment in the Warehouse</b>	Storage facilities have a high risk of injury. Outlines safety procedures for the correct operation and maintenance of warehouse equipment, techniques for handling equipment on loading docks are illustrated, including checking trailer wheels, inspecting dock boards, working inside a real car, and operating forklifts. Rules for stacking and picking orders are reviewed, along with tips for the safe operation of hoist and conveyors.	<b>P11</b>	VHS	12 min
Safety Orientation	General Safety	<b>Public Agency Safety 3</b>	The various dangers around the job sites are reviewed, including flagging safety, small site traffic control and skin protection. Don Brown.	<b>T19</b>	VHS	10 min
Safety Orientation	General Safety	<b>Reducing Unsafe Acts: Human Behavior</b>	Explains what an unsafe act is and how accidents are caused. For either workers or supervisors. Can help any safety program. Don Brown.	<b>R22</b>	VHS	10 min
Safety Orientation	General Safety	<b>Reporting For Work</b>	Instructs workers on the responsibilities for reporting for work in proper clothing with a proper safety attitude. General introduction to safety basics that will supplement any safety orientation program for workers. Don Brown	<b>R20</b>	VHS	13 min
Safety Orientation	General Safety	<b>Room to Live</b>	An officer (Sgt. Jack Ware) discusses his observations at accident sites. A very "moving" film that seems to reach a majority of its viewers. RM.	<b>R10</b>	VHS	9 min
Safety Orientation	General Safety	<b>Safety Orientation and Accident Prevention</b>	Meets OSHA training requirements for exposure to general hazards. Basic safety information suitable for training new and experienced employees. Safety Source.	<b>S60</b>	DVD	12 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Safety Orientation	General Safety	<b>Silence of the Slams</b>	Sal is the most unsafe crook in America. Will this guy wise up, or be sent to the chair, at the prison for the criminally unsafe? This video takes a humorous approach to selling employees on the concept of safety.	<b>S24</b>	VHS	5 min
Safety Orientation	General Safety	<b>Subcontractor Safety Orientation</b>	General coverage of rules, regulations and responsibilities for safety on the job site.	<b>S37</b>	VHS	10 min
Safety Orientation	General Safety	<b>The Safety Secret</b>	Emphasizes the importance of developing the right safety attitude and how it affects us and the people we come in contact with. Focuses on safety in the office, the factory, at home, and even on the highway, with the message that it is up to each individual to make safety an important part of everyday life. American Media, Inc.	<b>S59</b>	VHS	22 min
Safety Orientation	General Safety	<b>Thinking It Through</b>	The mark of the professional Supervisor. ITS.	<b>T 4</b>	VHS	22 min
Safety Orientation	General Safety	<b>Timing Is Everything</b>	Shift work can be hazardous because it interferes with the body's natural daily rhythm. Workers are alerted to the potential dangers of shift work and how to avoid accidents. Safety Shorts.	<b>T 5</b>	VHS	5 min
Safety Orientation	General Safety	<b>Training Needs Assessment</b>	Shows how a Training Needs Assessment Program can greatly assist managers in saving time, increasing productivity and being sure that there are trained people in all areas. Bureau of Business Practice.	<b>T18</b>	VHS	20 min
Safety Orientation	General Safety	<b>Universal Precaution: Nursing</b>	General safety practices.	<b>U 3</b>	VHS	5 min
Safety Orientation	General Safety	<b>Warehouse: Distribution Center Safety</b>	This video covers: motorized vehicles; operation/pedestrian teamwork; lifting with safety cages; fire prevention and safety; ladder safety; material handling and safe lifting; cardboard cutters and accident reporting.	<b>W 1</b>	VHS	10 min
Safety Orientation	General Safety	<b>Working Together: ADA</b>	The passage of the ADA is bringing more people into the workforce. Tips on how the able and the disabled can work together are offered.	<b>W13</b>	VHS	5 min
Safety Orientation	General Safety	<b>Workplace Fatalities: Most Common Causes</b>	Every year, thousands of workers die from job-related accidents. Primary causes are highway traffic accidents, homicides, falls, contact with flying or falling objects and electrocution. To help prevent accidents, be alert for hazards, and follow safety and health instructions at all times. Safety Shorts.	<b>W21</b>	VHS	5 min
Safety Orientation	Housekeeping	<b>Accident Causes and Prevention</b>	Guaranteed to reduce the occurrence of employee unsafe acts, thereby eliminating the majority of accidents. This video provides employees with a thorough understanding of the concept of unsafe acts and how they contribute to accidents.	<b>A 2</b>	VHS DVD	11 min
Safety Orientation	Housekeeping	<b>Bacteria &amp; Disease Control</b>	(Janitorial & Custodial Related) Covers basic sanitation and cleanliness, how bacteria can be harmful and what to do about it. Suitable for all janitorial or custodial personnel. Don Brown.	<b>B26</b>	VHS	10 min
Safety Orientation	Housekeeping	<b>Falling Objects</b>	Keeping an eye out and being aware are the first steps to insure you are not the victim of a falling object. Good housekeeping and keeping track of equipment is another.	<b>F 4</b>	VHS DVD	5 min
Safety Orientation	Housekeeping	<b>Good Housekeeping</b>	A strict housekeeping policy is an essential part of any safety plan and makes a better work environment. This program covers hygiene, waste control, machinery, storage, fire hazards and more.	<b>H43</b>	VHS	10 min
Safety Orientation	Housekeeping	<b>Incident Investigation</b>	Features 5 lessons containing 15 instructive interactions that will teach your employees about the skills and techniques necessary to identify the true root causes of any incident or accident, and develop corrective actions. Summit.	<b>I 9</b>	VHS	15 min
Safety Orientation	Housekeeping	<b>On Any Given Day</b>	Accidents can happen at any time, often without warning. General statistics and the benefits of taking safety seriously are presented in this attention-grabbing video.	<b>O 3</b>	VHS	5 min
Safety Orientation	Housekeeping	<b>Safety: Housekeeping and Accident Protection</b>	Shows employees how to pay special attention to housekeeping considerations. It encourages them to develop a Safety First state of mind, recognize potentially hazardous conditions, and become familiar with risks involved in their jobs. It emphasizes preparation & knowledge when handling tools, chemicals, and personal protective equipment.	<b>S11</b>	VHS DVD	17 min
Safety Orientation	Housekeeping	<b>Sanitation &amp; Cleanliness in Food Service Establishments</b>	Explains sanitation and cleaning procedures, safety and all other necessary information to improve cleaning and sanitizing in food service areas. For all custodial or janitorial personnel. Don Brown.	<b>S56</b>	VHS	12 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Safety Orientation	Housekeeping	<b>Sanitation/Hygiene for Food Service Employees</b>	For workers in food and beverage service, covers adequate sanitation, bacteria growth, temperature controls, personal hygiene, food handling and insect/rodent control. Don Brown.	<b>S57</b>	VHS	12 min
Safety Orientation	Housekeeping	<b>Star Witness: Accident Reporting</b>	This Safety Shorts video reminds workers that observing the details of an accident and reporting them accurately can prevent lost time in the future.	<b>S44</b>	VHS	7 min
Safety Orientation	Housekeeping	<b>Three Steps to Safety</b>	A job hazard analysis that workers and employers use to define, analyze and prevent potential hazards before they occur. How to use this concept every day is explained.	<b>T 7</b>	VHS	5 min
Safety Orientation	Machine Guarding	<b>Machine Guarding</b>	The importance of knowing the potential hazards of working with machinery is discussed in this program, along with the guards and devices that protect workers from injury. Covers: Point of operation hazards, nip points, PPE, barriers and shields, restraints, pullback devices and other safeguards. Tel-A Train.	<b>M22</b>	VHS	16 min
Safety Orientation	Machine Guarding	<b>Machine Guards</b>	This program is for employees as well as supervisors. It explains machine guarding is all about. Lockout, tagout, interlocks, photo cells, two-hand trip devices and more are covered in detail.	<b>M 1</b>	VHS DVD	12 min
Safety Orientation	Machine Guarding	<b>Machine Safeguarding</b>	Supervisor's development program.	<b>M 3</b>	VHS	9 min
Safety Orientation	Machine Guarding	<b>Machine Safety Guards</b>	Machine guards protect the worker from dangerous moving machine parts. See how machine guards work and learn some safety tips to keep in mind when using them. Safety Shorts. <i>(also in Spanish - 014)</i>	<b>M 2</b>	VHS	5 min
Safety Orientation	Maintenance	<b>HIGH IMPACT: Maintenance Safety</b>	Attitudes often make the difference between life and death when maintenance workers confront dangerous hazards on the job. The video shows re-enactments of eleven actual accidents suffered by these employees and offers the lessons to be learned from them.	<b>M 4</b>	VHS	19 min
Safety Orientation	Maintenance	<b>Maintenance Safety + Leaders Guide</b>	This video includes: 3 life saving safety attitudes, ladder safety, welding and cutting, gas cylinders, personal fall protection, Lock Out / Tag Out, confined spaces, clearing jams in equipment, line-braking, common electrical mistakes, listening to the "voice of experience," failing to get help when needed and much more.	<b>M 5</b>	VHS DVD	19 min
Safety Orientation	Maintenance	<b>Motor Fleet Maintenance Safety</b>	Motivate your fleet repair staff to see safety as part of their job and as a professional! This video will help them review basic safety tips and industry-specific safety.	<b>M14</b>	VHS	12 min
Safety Orientation	OSHA/Law Compliance	<b>Documentation of Safety Efforts</b>	For legal protection, your company must be able to provide regulatory agencies with written documentation of: your training and safety efforts; safety orientations/training; quizzes and tests; employee signatures; safety policies and procedures; a hazard identification and correction program; and your proof of inspections.	<b>D 8</b>	VHS	10 min
Safety Orientation	OSHA/Law Compliance	<b>Facts About OSHA Inspections</b>	OSHA ensures compliance with their regulations through inspections. Learn priorities, procedures & legal ramifications. OSHA's inspection priorities, your records and injury rate, inspection process, closing conference, citations and penalties.	<b>F 1</b>	VHS DVD	12 min
Safety Orientation	OSHA/Law Compliance	<b>How to Develop a Safety Program</b>	This video explains how supervisor are the key to the program; how they provide leadership in a manufacturing environment. When implemented, have reduced accidents and injuries by as much as 50% to 75%.	<b>H23</b>	VHS	19 min
Safety Orientation	OSHA/Law Compliance	<b>Life is for Living-Safety Meeting Opener</b>	This is an excellent tool to begin safety meetings or to stimulate discussion on nearly any safety topic. The theme of the video reminds viewers of the long-term consequences of injuries. It also illustrates how seemingly minor actions can lead to serious injuries.	<b>L14</b>	VHS	3 min
Safety Orientation	OSHA/Law Compliance	<b>Safety Committees The Real Story</b>	Video looks at causes of poor safety committees and how to improve safety committees.	<b>S 6</b>	VHS	12 min
Safety Orientation	Restaurant	<b>Bus Person, Dishwasher &amp; Janitor Safety</b>	A good safety attitude is essential when working in these service jobs. Includes teamwork and safety awareness, proper dressing, footwear and grooming, preventing cuts and burns, chemical and electrical hazards, and back injury prevention. Don Brown. <i>(also comes in Spanish - 031)</i>	<b>B17</b>	VHS	13 min
Safety Orientation	Restaurant	<b>Human Behavior Reducing Unsafe Acts</b>	Relating to Restaurants/Food Service. Explains what unsafe acts are and how to eliminate them. Good for reducing restaurant accidents and injuries. For either management or employees. Don Brown.	<b>H38</b>	VHS	12 min
Safety Orientation	Restaurant	<b>Restaurant Accident Investigation</b>	This is a program for supervisors and managers. It explains accident investigations, what to look for in an investigation, witness statements and fact-finding process.	<b>R 4</b>	VHS	11 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Safety Orientation	Restaurant	<b>Restaurant Sanitation &amp; Personal Hygiene</b>	Your food service employees have a responsibility to maintain a clean germ-free work environment. Ensure they understand their safety role by giving them practical, common sense methods. <i>(also in Spanish - 036)</i>	<b>R 5</b>	VHS	13 min
Safety Orientation	Restaurant	<b>Sanitation In Health Care Cafeterias</b>	Designed for employees working in cafeteria, including cleanup personnel, dishwashers, food services, cooks and maintenance staff. It explains bacteria, food handling, cleaning/sanitizing and more.	<b>S16</b>	VHS	13 min
Safety Orientation	Sexual Harassment	<b>Preventing Sexual Harassment For Employees</b>	Recently awarded 1st place in the " Best of Training" group in Compliance Magazine's annual Commitment to sexual harassment, explains how to avoid inadvertently harassing coworkers, and what procedures to follow if an employee feels like he/she is being harassed.	<b>P30</b>	DVD	16 min
Safety Orientation	Sexual Harassment	<b>Sexual Harassment</b>	Defines sexual harassment, what constitutes it, and the laws surrounding it. Teaches employees how to avoid sexual harassment and discuss the benefits of doing so.	<b>S50</b>	VHS	10 min
Safety Orientation	Sexual Harassment	<b>Sexual Harassment: Training for Employees</b>	Video geared toward Management and/or H.R. Dept., however, suitable for all employee viewing. Sexual Harassment is first defined and presented in acting scenarios. Then followed by methods and options to squelch unwanted advances. Also, how to report incidents.	<b>S47</b>	VHS	21 min
Safety Orientation	Substance Abuse	<b>Drugs &amp; Alcohol in the Workplace</b>	The variety of options available to handle this problem is discussed in this video. Covers: Safety and productivity, a policy statement for dealing with drug dependency, employee assistance programs, confidentiality, drug testing, self-denial and more. Safety Care.	<b>D28</b>	VHS	12 min
Safety Orientation	Substance Abuse	<b>Drug Abuse: Symptoms of Dependency</b>	Many people who don't think themselves to be drug abusers can become dependant on chemical substances, either legal or illegal. This video dramatizes on and off-the-job situations that signal the approach of a real problem.	<b>D 9</b>	DVD	23 min
Safety Orientation	Substance Abuse	<b>Hapless Hal &amp; The Temple of Doom</b>	Using drugs and alcohol on the job before driving is a big risk. Hapless Hal learns, the hard way, how consuming these substances can affect physical and mental skills.	<b>H 5</b>	VHS DVD	5 min
Safety Orientation	Substance Abuse	<b>Monday Night &amp; Tuesday Morning</b>	Dramatic true-to-life story of how hangovers can seriously impair performance and create danger at work. Ideal for use in a management-initiated alcohol and drug abuse awareness program. National Safety Council.	<b>M13</b>	VHS DVD	14 min
Safety Orientation	Substance Abuse	<b>Rx For Safety</b>	Careless use of prescription drugs can be dangerous. Workers are warned not to stop early, to double up or to take med. Other than when prescribed. Cautions against mixing with other pills, alcohol or drugs.	<b>R11</b>	VHS	5 min
Safety Orientation	Substance Abuse	<b>Substance Abuse in the Workplace</b>	Covers the dangers of the most commonly abused drugs, how to recognize the warning signs of drug use, and how drug and alcohol abuse affects the work environment. This hard-hitting video explains how employees can help keep their workplace drug and alcohol-free and the benefits of doing so. Also includes information on the different treatment options available to abusers.	<b>S49</b>	VHS	10 min
Specific Hazards	Confined Space	<b>Confined Space Entry - Permit Required</b>	This video program will help protect your employees from the dangers of working in confined spaces. Discusses: Entry Permit Regulation, safe atmosphere testing, personal protective equipment, training the entry team.	<b>C17</b>	VHS DVD	21 min
Specific Hazards	Confined Space	<b>Confined Space Entry &amp; Safety</b>	For any confined space where potentially breathing the air is unacceptable. Good info. Don Brown.	<b>C31</b>	VHS	11 min
Specific Hazards	Confined Space	<b>Confined Space Entry II</b>	Looks at the key job responsibilities of the attendant during a confined space procedure. Communication, monitoring, handling unauthorized people in the area and what to do if an emergency. Industrial Training, Inc.	<b>C36</b>	VHS	11 min
Specific Hazards	Confined Space	<b>Confined Space Hot Work - A Checklist to Safety</b>	Covers the special preparation and attention needed for this type of operation. Covers identifying a confined space, utilizing a work permit, preparation, testing the atmosphere and fire watch and emergency rescue. Coastal.	<b>C34</b>	VHS	20 min
Specific Hazards	Confined Space	<b>Confined Space Non-entry Rescue</b>	For self-rescue and non-entry confined space rescue training. Covers: using your head in an emergency, the importance of teamwork, how to identify and control hazards, safe work practices and equipment, signs of oxygen deficiency, communications, back up systems and more. Somewhat graphic.	<b>C28</b>	VHS	20 min
Specific Hazards	Confined Space	<b>Confined Space Safety</b>	This program starts by defining a confined space and then talks about confined space entry permits. Featured is the approach that should be taken to deal with the 2 major hazard groups... hazardous atmospheres and energy sources. Safety Care.	<b>C42</b>	VHS	15 min
Specific Hazards	Confined Space	<b>Confined Space Safety II - Testing Confined Spaces</b>	The methods used to detect invisible atmospheric hazards are shown. Covers gas detector tubes, electronic gas detectors, dangers of flammable gases and how to detect them. Revised Version Tel-A-Train.	<b>C32</b>	VHS	20 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Confined Space	<b>High-Risk Rescue</b>	Approximately 60% of all confined space fatalities are rescuers. Viewers are made aware of the hazards in a confined space, the proper equipment required to affect a rescue and the fact that only trained individuals should ever attempt a rescue. Discusses..."Underground construction & maintenance (pipeline) crews. Serious in nature, presented correctly in simple manner."	<b>H19</b>	VHS	5 min
Specific Hazards	Confined Space	<b>Once Too Many: Confined Space Entry</b>	When entering a confined space, a few basic safety procedures will assure a healthy exit. The rules of entering a confined space are outlined.	<b>O 5</b>	VHS	5 min
Specific Hazards	Confined Space	<b>Permit Required Confined Spaces</b>	Know the categories and examples of confined space, how to be aware of certain atmospheric conditions within a confined space and what OSHA requires of employees with respect to confined spaces.	<b>P 2</b>	VHS	5 min
Specific Hazards	Confined Space	<b>Underground Safety: Trench Shields</b>	The safe use of Trench Shields can be a life and death matter to a sewer or water construction worker. Highlights of several key practices for using them safely. See guidelines demonstrated on real construction sites.	<b>U 1</b>	VHS	12 min
Specific Hazards	Confined Space	<b>Who's Job Is It Anyway</b>	Confined spaces pose many hazards to entrants, as well as to would-be rescuers. It's important that all affected employees: entry supervisors, entrants, and attendants know, in advance, what is expected of them at any given time and situation.	<b>W 7</b>	VHS	5 min
Specific Hazards	Electrical	<b>Basic Electricity</b>	An examination of electric power and its uses in industry. Includes measurement (amps, volts, and watts), DC, AC, phases, magnetisms and electric motors. Majec Training.	<b>E28</b>	VHS	18 min
Specific Hazards	Electrical	<b>Common Electrical Test Meters</b>	Reviews analogs and digitals. Amer. Ed. Films.	<b>E30</b>	VHS	14 min
Specific Hazards	Electrical	<b>Electrical Safety</b>	You must be trained and authorized for electrical tasks, why electrical lock out/ tag out is so important, verifying that clearance distances, scaffolds, lift trucks, pipes, etc. can become electrical conductors.	<b>E 9</b>	VHS	18 min
Specific Hazards	Electrical	<b>Electrical Safety 2000</b>	This is an excellent training program for all employees. Discusses electrical safety, grounding of electrical equipment, power cords, extension cords, double insulation, three prong plugs, wires, and a good safety overview of electrical safety in the workplace.	<b>E13</b>	VHS DVD	14 min
Specific Hazards	Electrical	<b>Electrical Safety On The Farm &amp; Ranch</b>	Electrical Hazards - Equipment operation & working with electrical hazards. Very basic. Done in Spanish & redubbed in English. Spanish subtitles. PG & E. <i>(also in Spanish - 039)</i>	<b>E11</b>	VHS	11 min
Specific Hazards	Electrical	<b>Electrical Safety Principles</b>	The basics of safe work with or around electricity, grounding and ground faults, circuits, circuit breakers and fuses, current flow, voltage, etc.	<b>E27</b>	VHS	14 min
Specific Hazards	Electrical	<b>Electrical Safety Related Work Practices Standard</b>	Discusses definitions of "qualified" and "non-qualified" employees and training requirements for each, lock out/ tag out requirements and overhead power-line.	<b>E12</b>	VHS	12 min
Specific Hazards	Electrical	<b>Fire Protection &amp; Electrical Safety</b>	Supplements the legal requirements for emergency preparedness training and reinforces safety orientation training in fire protection and electrical safety. Don Brown.	<b>F10</b>	VHS	9 min
Specific Hazards	Electrical	<b>Fire Protection/ Electrical Safety</b>	Excellent for new or experienced employees. Covers fire extinguishers, sprinklers, housekeeping chemicals, cords, receptacles, and general electrical safety.	<b>F 9</b>	VHS DVD	9 min
Specific Hazards	Electrical	<b>HIGH IMPACT: Electrical Safety</b>	Electricity knows only one route: the shortest path to ground. Viewers will see what can happen to them after watching these dramatic re-creations of real life events. They will then choose safe work practices.	<b>E10</b>	VHS DVD	19 min
Specific Hazards	Electrical	<b>High Voltage Electrical Safety</b>	This program is designed specifically for persons working with 480 to 600 volts of electricity. Electrical safety tips, proper safety procedures, how to avoid electrical shock with working with high voltage and much more.	<b>E24</b>	VHS DVD	14 min
Specific Hazards	Electrical	<b>Our Invisible Friend - Electricity</b>	Reviews the basics of electrical systems and focuses on how to work with electricity safely. Covers fuses, overloaded circuits, short circuits, power tools, grounding, polarized plugs, double insulation and more. For either home or off-the-job basic electrical safety education. Marcom.	<b>E26</b>	VHS	17 min
Specific Hazards	Electrical	<b>Power Line Hazard Awareness</b>	Explains the dangers of power lines and how to recognize and avoid power line hazards while on the job.	<b>P13</b>	VHS	18 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Electrical	<b>Working with Electricity: Safety on the Job</b>	The basics of working safely with electricity and the potential hazards involving electricity are covered in this video. Covers insufficient wire and insulation, faulty breakers, overloads, power tools being used around water, and the importance of knowing what to do in case of an electrical fire. Aims.	<b>E29</b>	VHS	16 min
Specific Hazards	Electrical	<b>Zap! Power Line Safety</b>	Power lines are like snakes, silent, but deadly. We need to be aware of power lines, above and below ground. We need to know how to avoid this danger and what to do in an electrical emergency.	<b>Z 1</b>	VHS	5 min
Specific Hazards	Hand & Power Tools	<b>Box Cutter Safety</b>	Shows that no matter what type of box cutter is used, they can all lead to cuts. Explains how to cut boxes properly and prevent injuries. Don Brown.	<b>B28</b>	VHS	8 min
Specific Hazards	Hand & Power Tools	<b>Chains and Safety</b>	The dangers of chains are often ignored until someone gets hurt. Proper chain safety and maintenance are shown. Helpful hints for avoiding accidents are offered.	<b>C24</b>	VHS DVD	5 min
Specific Hazards	Hand & Power Tools	<b>Chainsaw Safety</b>	Appropriate for youth and adult saw users. Discusses safety features, need for protective equipment, and a selection of chain saws along with proper use of chain saws. The Idea Bank.	<b>C 6</b>	VHS DVD	14 min
Specific Hazards	Hand & Power Tools	<b>Chainsaw: Maintenance &amp; Safety</b>	This follow-up program discusses the components of the chain saw (guards, engine, chain, etc.), chain selection, safe sharpening techniques, filing techniques, chain tension, operating the saw safely, personal protective gear and incorporating safety into all aspects of chainsaw use. Safety Care.	<b>C39</b>	VHS	15 min
Specific Hazards	Hand & Power Tools	<b>Circular Saws</b>	Covers types of saws, blades, cuts and techniques. Includes question/answer reviews. TPC Training.	<b>C41</b>	VHS	17 min
Specific Hazards	Hand & Power Tools	<b>Compressed Air Safety</b>	Compressed air safety is a comprehensive DVD on many different types of compressed air.	<b>C45</b>	DVD	11 min
Specific Hazards	Hand & Power Tools	<b>Hand &amp; Power Tool (Automotive Related)</b>	Covers the most frequently used hand and power tools. Explains basic procedures for tool safety, housekeeping, and other safety procedures, designed to reduce accidents. Don Brown.	<b>T14</b>	VHS	12 min
Specific Hazards	Hand & Power Tools	<b>Hand Safety</b>	The #1 cause of hand injuries is human error. Covers pinch points, hot spots, rotating surfaces, automated machinery, jewelry/loose clothing, and hand tools. Summit/Coastal.	<b>H49</b>	VHS	10 min
Specific Hazards	Hand & Power Tools	<b>HIGH IMPACT: Hand Safety</b>	This video vividly re-creates 15 hand and finger injuries to show the viewer the effects of unsafe work practices. While the program graphically illustrates each accident, it also presents the causes and prevention measures for each one. The program will force the viewer to think about the value of his hands and how fragile they can be if neglected or left unprotected.	<b>H 4</b>	VHS DVD	17 min
Specific Hazards	Hand & Power Tools	<b>HIGH IMPACT: Metal Working Safety</b>	This video focuses on these four rules: 1) Understand the machine's operations and the potential hazards involved. 2) Acquire proper training and authorization before operating any tool or machine. 3) Always wear the correct personal protective equipment.	<b>M19</b>	VHS DVD	19 min
Specific Hazards	Hand & Power Tools	<b>Knives and Box Cutters</b>	Knives disable more people than any other hand tool. Learn how to sharpen your safety skills when using knives and box cutters.	<b>K 1</b>	VHS	5 min
Specific Hazards	Hand & Power Tools	<b>Landscape Equipment Safety Vol.1: Push Mower</b>	Covers 5 safety steps: proper equipment, knowing how to use specific machinery, preparation and maintenance, proper use of fuel and how to operate equipment properly and safely.	<b>P22</b>	VHS	20 min
Specific Hazards	Hand & Power Tools	<b>Nail &amp; Staple Guns</b>	Hapless Hal, veteran of countless unsafe practices, shows how not to use pneumatic nail and staple guns in the humorous "Rambo" spoof.	<b>N 1</b>	VHS DVD	5 min
Specific Hazards	Hand & Power Tools	<b>Pallet Jacks</b>	Use pallet jacks to pump up our production without pumping up your number of injuries. Safety Shorts.	<b>P 1</b>	VHS	5 min
Specific Hazards	Hand & Power Tools	<b>Power Hand Tools: Landscape Equip. Safety</b>	Great general information on use of hand tools. Volume three of the landscape equipment safety series.	<b>P12</b>	VHS	20 min
Specific Hazards	Hand & Power Tools	<b>Radial Arm Saws</b>	Radial arm saws can be valuable workshop aids... if used correctly. Safety rules for setup and various operations are examined.	<b>R 1</b>	VHS	

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Hand & Power Tools	<b>Safe Operation of Chain Saws</b>	The basics safety rules of chain saws... covers preparation (inspecting, refueling, starting and holding) and operating the saw (height, grip and cutting techniques) and more. Safety Care.	<b>C40</b>	VHS	15 min
Specific Hazards	Hand & Power Tools	<b>Safety and Use of Air Compressors</b>	Shows how electric and gas compressors work, safety procedures, personal protective equipment, handling hoses and correct uses of compressors. Also gives a checklist for use of portable compressors and discusses air filters, regulators, valves, lubricating pneumatic tools and connections. Safetycare.	<b>A16</b>	VHS	12 min
Specific Hazards	Hand & Power Tools	<b>Short Cut to Disaster - Part 1</b>	When using chainsaws, safety begins by being prepared. Hapless Hal looks at proper clothing and procedures prior to using a chainsaw. Safety Shorts. <i>(also in Spanish - 020)</i>	<b>S20</b>	VHS	5 min
Specific Hazards	Hand & Power Tools	<b>Short Cut to Disaster - Part 2</b>	Chainsaws, when properly used, can be invaluable tools. Hapless Hal demonstrates safe procedures in using a chainsaw. Safety Shorts. <i>(also in Spanish - 021)</i>	<b>S21</b>	VHS	5 min
Specific Hazards	Hand & Power Tools	<b>Some Mistakes Last Forever</b>	A graphic reenactment of an actual accident. Emphasizes the importance of following safety rules with machines and equipment. The accident victim tells how his mistake cost him not only a couple of fingers and part of his hand, but also a good-paying job, his house, marriage as well as his health when he becomes an alcoholic. This true story will motivate workers. Educational Resources Inc.	<b>M20</b>	VHS	18 min
Specific Hazards	Hand & Power Tools	<b>Table Saws</b>	Table saws can be extremely dangerous. Help reduce hazards by knowing your saw, and following safe procedures for operation and use.	<b>T 1</b>	VHS	5 min
Specific Hazards	Hand & Power Tools	<b>Updated - Hand and Power Tool Safety</b>	Don Brown.	<b>U 8</b>	VHS	13 min
Specific Hazards	Hand & Power Tools	<b>Using Power Tools Safety</b>	Safe operations of hand held tools, proper working attire and electrical safety.	<b>U 4</b>	VHS	20 min
Specific Hazards	Hand & Power Tools	<b>Woodworking Hand Tools</b>	Working with wood can be very rewarding. Don't take away from that personal satisfaction by risking injury because you did not use the right tool safely. Safety Short.	<b>W 9</b>	VHS	5 min
Specific Hazards	Hand & Power Tools	<b>Working Safely with Hand &amp; Power Tools</b>	Working with hand and power tools is a comprehensive DVD on both hand & power tool safety.	<b>H55</b>	DVD	10 min
Specific Hazards	Lockout/Tagout	<b>HIGH IMPACT: Lock Out/Tag Out</b>	This program features eight accident re-creations that demonstrate the importance of following all prescribed lockout/tagout procedures. The viewer will also learn the responsibilities and safe work procedures of those who are affected by lockout/tagout as well as those who are authorized to service machines and perform lockout/tagout procedures.	<b>L12</b>	VHS	19 min
Specific Hazards	Lockout/Tagout	<b>Lockout / Tagout Hazardous Energy Sources</b>	Procedures and reasons for using Lock Out/Tag Out are shown. Who should be authorized to do it and undo it is discussed as well as when and why it is needed. Equipment scheduled to be worked on needs to be "Locked Out" and/or "Tagged Out" so that it will not "operate" while it is being maintained or serviced to protect those performing the work. <i>(also in Spanish - 013)</i>	<b>L11</b>	VHS	
Specific Hazards	Lockout/Tagout	<b>Lockout / Tagout Procedure</b>	Intended for the persons who perform lockout/tagout procedures at your site. This program covers proper procedures for isolating energy sources when servicing or repairing equipment, verifying that zero energy state is achieved, and proper procedures for re-starting equipment. Valley Video.	<b>L18</b>	VHS	7 min
Specific Hazards	Lockout/Tagout	<b>Lockout/Tagout Review</b>	Following correct lockout/tagout procedures is vital to a safe work environment. During maintenance or repair, a piece of equipment must have its energy source isolated and disabled through proper lockout/tagout procedures. This brief, informative overview of the process will insure that everyone in your facility is aware of what to do when working on machinery. Safety Source.	<b>L22</b>	DVD	7 min
Specific Hazards	Lockout/Tagout	<b>Lockout/Tagout Would Have Saved His Life</b>	A comprehensive overview of the purpose of lockout/tagout, employee roles and responsibilities, including who is authorized to perform lockout, and the purpose and contents of an Energy Control Plan.	<b>L23</b>	DVD	20 min
Specific Hazards	Lockout/Tagout	<b>Lockout/Tagout: Janitors</b>	Meets training requirement for "affected" and "authorized" employees and can be of great benefit to those employees who work with or around any type of machine or equipment.	<b>L21</b>	VHS	10 min
Specific Hazards	Lockout/Tagout	<b>Machine Lockout: Controlling Hazardous Energy</b>	Gives an 8-step method that gives the exact procedures for locking out and controlling hazardous energy. Covers isolation of equipment, locks and tags, primary and secondary emergencies and how to safely restore the equipment to normal operation. Tel-A-Train.	<b>L17</b>	VHS	21 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Lockout/Tagout	<b>OSHA's Hazardous Energy Source (Lock out/ Tag out)</b>	This program meets the requirements for training employees in the new lockout/tagout procedures. Training for "Affected and Authorized" employees. <i>(also comes in Spanish - 035)</i>	<b>O 7</b>	VHS	10 min
Specific Hazards	Lockout/Tagout	<b>Tag, You're It</b>	Shutting down and locking out machinery prior to making repairs is an important safety procedure. Lockout/Tagout procedures are shown. <i>(also in Spanish - 023)</i>	<b>T 2</b>	VHS	5 min
Specific Hazards	Lockout/Tagout	<b>Working with Machinery: Safety on the Job</b>	Teaches safety from 2 perspectives...protecting the worker and safeguarding the machine. Covers dangers to eyes, ears, hands and lungs. Precautions for each part of the body are described. Also illustrates safety equipment and how to use it. Aims.	<b>M21</b>	VHS	17 min
Specific Hazards	Slips, Trips, Falls	<b>A Custodian's guide to On-the-Job Safety</b>	Here is a video that's focus is on preventing trip and slip hazards; how to safeguard against asbestos; power and hand tool safety; working with chemicals safely; safe lifting and ladder safety. The Idea Bank.	<b>C23</b>	VHS	25 min
Specific Hazards	Slips, Trips, Falls	<b>Accident Investigation</b>	No workplace is exempt from accidents. Know how to properly handle accidents when they occur. Video covers why accidents may occur and how to avoid similar occurrences in the future.	<b>A11</b>	VHS	12 min
Specific Hazards	Slips, Trips, Falls	<b>Cleaning &amp; Polishing Floors without Slips &amp; Falls</b>	Designed to improve floor surface appearance and at the same time reducing the possibility of slips and falls. These are some of the more costly accidents. This video helps train janitors/custodians on how to reduce the effects of slips and falls. Don Brown.	<b>C11</b>	VHS	16 min
Specific Hazards	Slips, Trips, Falls	<b>Dancing Alone</b>	The true story of Joe G. After 24 years of marriage, he died in an on the job fall. As family & friends describe the impact of his death, viewers realize it could be them. A good opener for a safety discussion.	<b>D 1</b>	VHS DVD	11 min
Specific Hazards	Slips, Trips, Falls	<b>Fall Protection - It's No Game</b>	Stay safe on the construction work site with this comprehensive program. Major danger zones are identified, such as open-sided platforms, leading edges, and openings in floors and walls. It also discusses conventional safety systems, including guardrails and personal fall arrest systems. Meridian Education.	<b>F43</b>	DVD	15 min
Specific Hazards	Slips, Trips, Falls	<b>Falls</b>	Falls are one of the most common accidents, yet one of the easiest to prevent. The causes of falls and the ways they can be avoided are examined. <i>(also in Spanish - 007)</i>	<b>F 5</b>	VHS DVD	5 min
Specific Hazards	Slips, Trips, Falls	<b>HIGH IMPACT: Fall Protection</b>	The program features ten accident recreations that illustrate how shortcuts and other common safety mistakes can lead to serious injury and death.	<b>F 3</b>	VHS	19 min
Specific Hazards	Slips, Trips, Falls	<b>How to Prevent Slips and Falls</b>	98% of slips and falls can be prevented! Eliminate workplace hazards before costly injuries occur. Outside and entry way; housekeeping, mats, polishing, waxing and mopping safely, stair and ladder safety, and training. Don't take walking for granted!	<b>H25</b>	VHS DVD	12 min
Specific Hazards	Slips, Trips, Falls	<b>If icouldawouldashoulda</b>	How does it feel if you gamble with safety and you lose? As Harvey falls to his fate, he looks at what he could have, should have and would have done to avoid his fall.	<b>I 2</b>	VHS DVD	5 min
